

**Grange Ward - Proposed Polling Districts and Stations**

| Polling District | Proposed polling station                         | Projected Electorate* | Proposed Changes from previous Polling districts and reasons   |
|------------------|--|-----------------------|--|
| GRN1             | Bermondsey Village Hall, Kirby Grove             | 2031                  | The existing arrangements of polling districts GRN1 and GRN2 need to be significantly changed due to the size (both currently over 2,500 electors) coupled with a number of new developments due to complete within the next 4 year period. Notably the area shown above west of Tower Bridge Road is proposed to move to GRN2 with consequent knock on effects for the ward as a whole. |
| GRN2             | Evelyn Cole House, 49a Grange Walk               | 2056                  |  |
| GRN3             | Haddon Hall Baptist Church, 22 Tower Bridge Road | 1140                  | No change from previous years  |
| GRN4             | Setchell TA Hall, Hazel Way                      | 1314                  | For Amisha Court, Cube House and Artesian House to move into GRN4 from previous GRN2 due to size.  |
| GRN5             | Alma Primary School, Alexis Street               | 1950                  | It is proposed to increase GRN5 in size to incorporate an area (mainly around the Neckinger estate) from the previously oversized GRN2   |

\* The projected electorate is the number of Parliamentary electors due to go to the polling station (i.e. excluding postal voters) based on the register totals at the last general election. It does not include new developments that are likely to complete within the next 4 years which have also been factored in to the recommendations.
