

**Riverside Ward
Proposed Polling Districts and Stations**

| Polling District | Proposed polling station | Projected Electorate* | Proposed Changes from previous Polling districts and reasons |
|------------------|---|-----------------------|--|
| RIV1 | Tower Bridge Primary School, Fair Street | 758 | Previously this was one polling district. It is proposed to formally split into two but for both to use the same polling location. This is due to the current size being near the 2500 limit and a large new development on Potters Field which will increase the electorate above this limit. |
| RIV2 | Tower Bridge Primary School, Fair Street | 1505 | |
| RIV3 | Wade Hall, Dickens Estate | 1960 | This polling district was previously two. By combining the areas and allocating voters around the Marigold Street/ Cherry Garden Street area to RIV5 we can cease to use Riverside School as a polling station. |
| RIV4 | Beormund Community Centre, 177 Abbey Street | 1075 | No change from previous years |
| RIV5 | Millpond Tenants Hall, 210A Jamaica Road | 1876 | As in previous years but with electors around the Marigold Street/ Cherry Garden Street area added to this polling district (see RIV3). |

* The projected electorate is the number of Parliamentary electors due to go to the polling station (i.e. excluding postal voters) based on the register totals at the last general election. It does not include new developments that are likely to complete within the next 4 years which have also been factored in to the recommendations.
