

# Old Kent Road update

## Response to community consultation on the Old Kent Road Area Action Plan

We are responding to feedback on our plans for the Old Kent Road and making changes by:

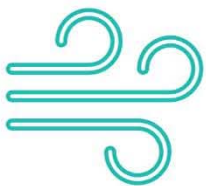

- Piloting a Development Charter to hold developers to account, requiring them to listen to the voices of local communities affected by development
- Piloting a Community Review Panel so locals can tell us what they think about new development proposals
- Strengthening the role of the Southwark Design Review Panel, particularly in relation to tall buildings
- Developing a more detailed ground floor strategy

- Making the Old Kent Road a Healthy High Street

- Delivering more open and green space, including a public realm strategy for the planned new linear park and Frensham Street park

- Tackling the Climate Change Emergency

- Securing 17,500 pledges of support to Back the Bakerloo line extension

17,500

- A Social Regeneration charter being prepared for this Autumn to ensure that Old Kent Road regeneration measurably reduces health, housing and economic inequalities in the area
