

VALIDATION CHECKLIST – NOTIFICATION IN CONNECTION WITH TEMPORARY PERMITTED DEVELOPMENT RIGHTS FOR LARGE HOME EXTENSIONS

The following information (on both the national and local list of requirements) in the validation checklist must be submitted with your application for it to be accepted as valid and for consideration of your application to begin. We encourage you to submit all applications online via the [Planning Portal](#). Application forms can be found via the following link: <http://www.planningportal.gov.uk/planning/applications/paperforms#app> If any of the required information is not submitted with your application, you should submit written justification as to why you consider it is not appropriate in the particular circumstances of your proposed development.

National List of Requirements

Requirements	Guidance Notes
<p>Written description of the proposed development including:</p> <ul style="list-style-type: none"> • How far the enlarged part of the house extends beyond the rear wall of the original house • The maximum height of the enlarged part of the house • Height of the eaves of the enlarged part of the house 	<p>Required.</p> <p>This should include data required by the Greater London Authority Data Standard. <p>The short time period available for processing notifications of larger home extensions means that, in cases, where the Council receives an objection to the proposals, there is little opportunity to obtain additional information from the developer to help assess the impact of the proposal on the amenity of adjacent owners/occupier. You are therefore requested to provide as much additional information as possible about the proposal when the notification is initially submitted. The following information would be particularly useful:</p> <ul style="list-style-type: none"> • Photographs showing the development site and its relationship with adjacent premises • Drawings showing the proposed floor plans, elevations and roof plan. • Details of proposed methods for mitigating the impact on the amenity of adjacent occupiers where the development is likely to have an adverse effect on the quality of the air, noise levels in the area, and light to adjacent properties. <p>Details of measures to prevent disturbance due to substantial excavation or demolition works, disruption during construction works and damage to trees would also be helpful.</p>
