Foreword

A message from Jasmine Ali,

Deputy Leader and Cabinet Member for Children, Young People and Education

Dear student

Your future after Year 11

Over the coming months you will be making important choices about what you will do after year 11. We want to make sure you have either a college place, a job, or training to go to after school.

I know GCSE, A-level and BTEC exams returned in summer 2022 following the upheaval caused by the coronavirus pandemic. I want you to know that Southwark Council is working with colleges, employers and schools to provide you with as many opportunities as we can.

The council is mindful of the impact that the COVID-19 pandemic has had on all our young people. Our Youth New Deal is there to ensure that our education, employment, youth services and the new youth parliament work together to ensure young people get the support they need to succeed. Our post 16 offer is an important part of our new deal for young people.

We have developed a new digital information hub called **One Hub** where young people and families will be able to search up to date information about youth activities to do in their

area. It will also be a one stop shop for helpful information and signposting on a wide range of youth related topics and with particular focus on job vacancies, career support, apprenticeships, volunteering opportunities, etc. The website has been developed with input from, and tested by, young people throughout. This platform has been designed especially with mobile phones in mind as this is the device most young people have access to.

Our young people's opportunities webpage empowers young people to achieve their participation age to stay in education or find employment with training, our website gives you information about up to the minute opportunities, **Employment, training, careers information, volunteering and business support for young people.**

In the meantime, this prospectus will help you through the process. It tells you all about the options available to you in Southwark while you are in-year 12 and 13.

Whether you want to go on to A Levels, do a technical or professional course, start an apprenticeship, or take up a traineeship, work and train. Whatever your future holds, there's something in Southwark for you.

Do have a look at the great apprenticeship scheme the council runs. As an apprentice you can earn and learn at the same time. And every year we offer lots of different placements.

As a Southwark Council apprentice, you will work towards a nationally recognised qualification, and will get the London Living Wage. If you are interested, you can find out more at **Southwark apprenticeships**

Don't forget each sixth form has its own application process, either via its website or a specific form, so make sure to check each school's individual page in this prospectus.

We encourage you to follow the post 16 timetable **see pages 5 and 6**; apply in advance, attend open days so that you can tour the sixth forms or colleges and meet the teachers.

Whatever you choose to do, the most important thing is to spend some time discussing with your school's careers adviser, teachers and family or carers, to decide what will be right for you. This is your chance to express your skills, interests and passions!

Whatever you are thinking of doing, you can get more information by emailing the Post 16 Service. **Post16Service@southwark.gov.uk**

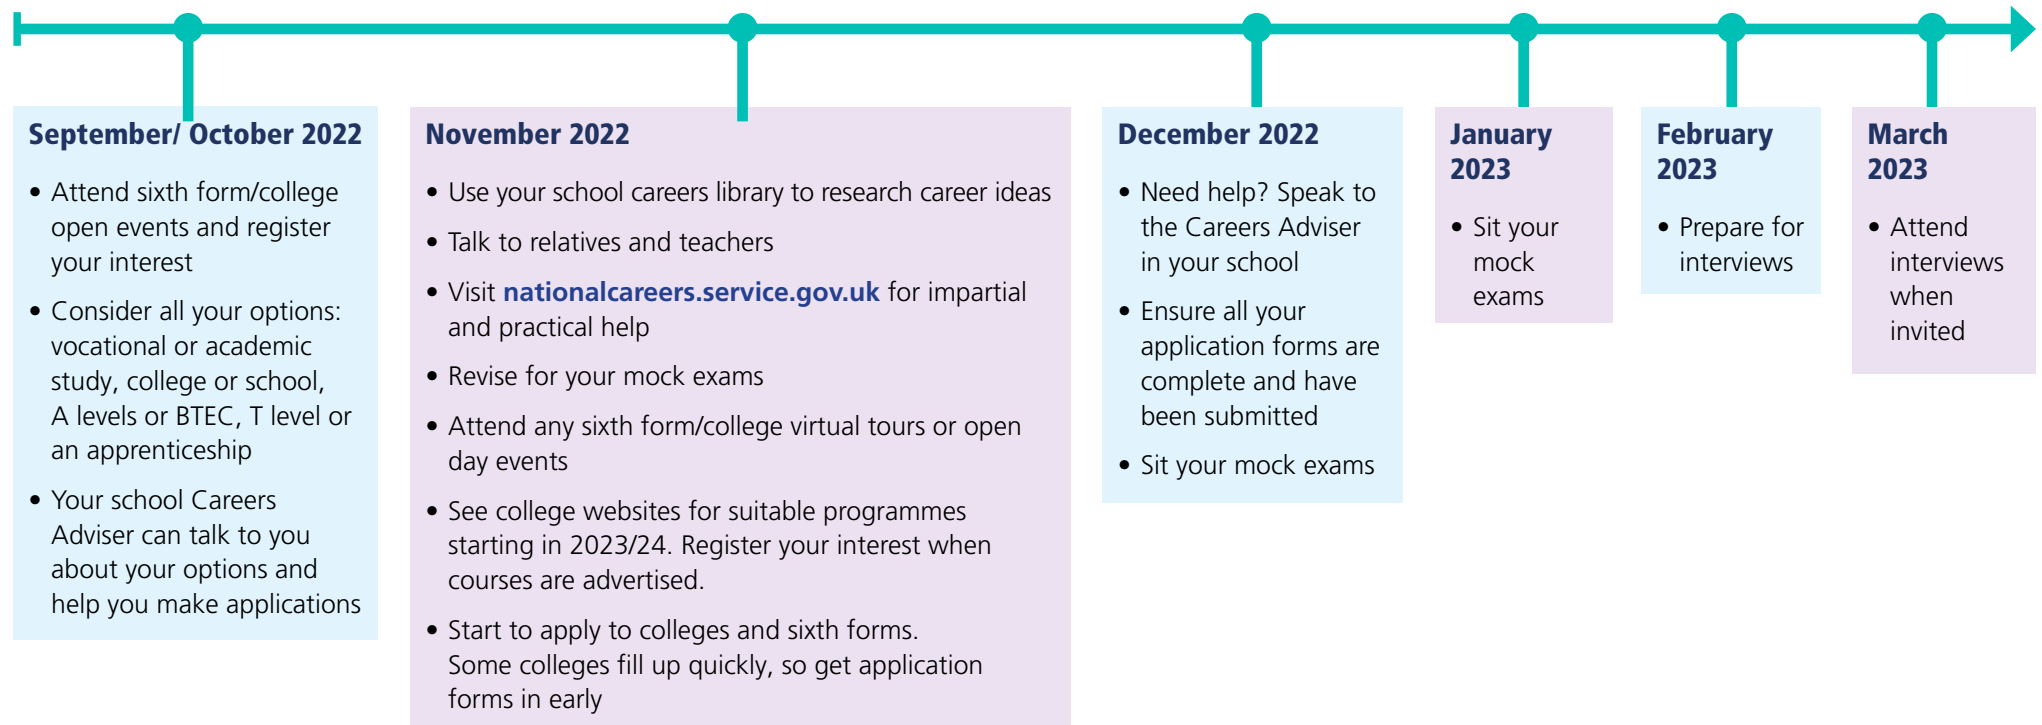

Your choices

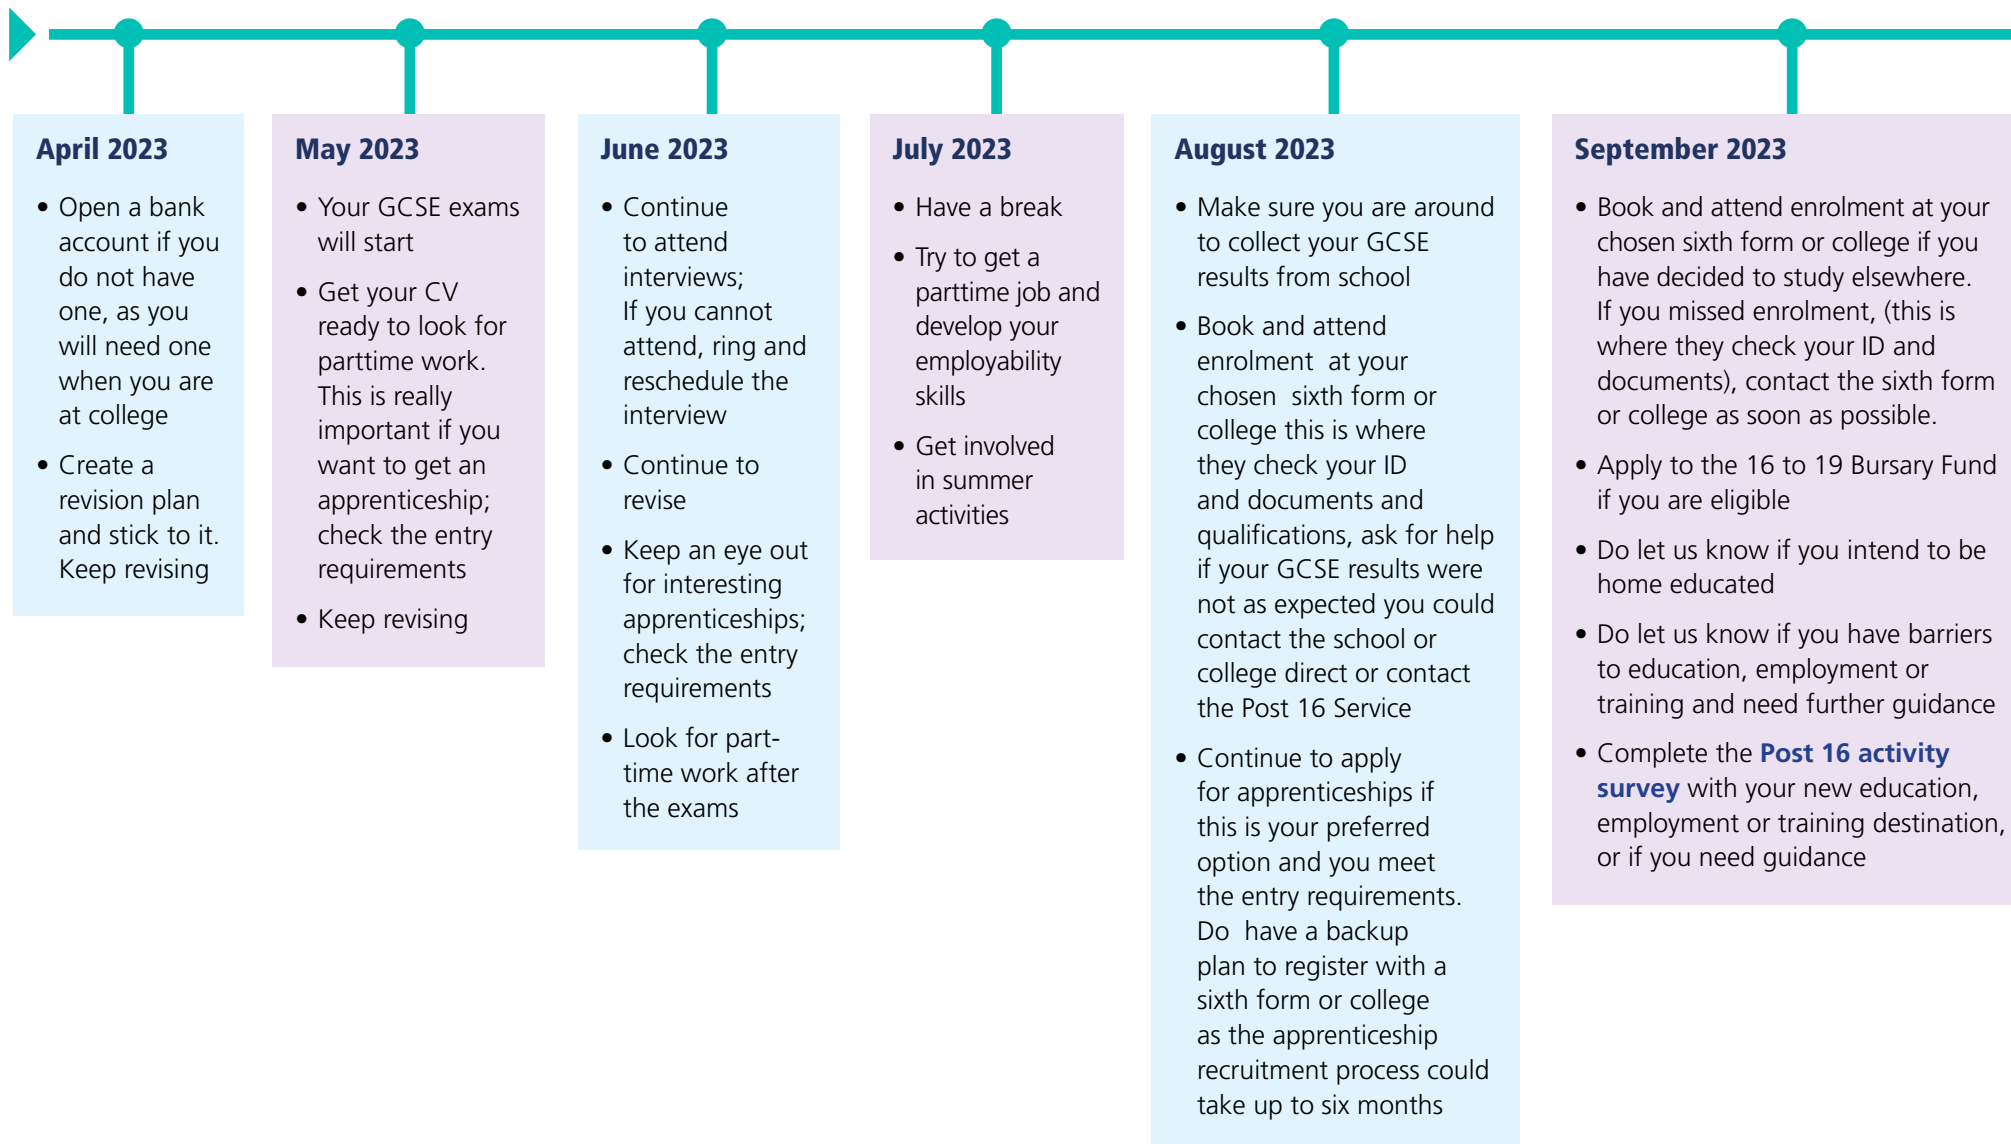

Your choices

Deciding what you want to do next

Post 16 timetable for September 2023 intake

April 2023

- Open a bank account if you do not have one, as you will need one when you are at college
- Create a revision plan and stick to it. Keep revising

May 2023

- Your GCSE exams will start
- Get your CV ready to look for parttime work. This is really important if you want to get an apprenticeship; check the entry requirements
- Keep revising

June 2023

- Continue to attend interviews; If you cannot attend, ring and reschedule the interview
- Continue to revise
- Keep an eye out for interesting apprenticeships; check the entry requirements
- Look for part-time work after the exams

July 2023

- Have a break
- Try to get a parttime job and develop your employability skills
- Get involved in summer activities

August 2023

- Make sure you are around to collect your GCSE results from school
- Book and attend enrolment at your chosen sixth form or college this is where they check your ID and documents and qualifications, ask for help if your GCSE results were not as expected you could contact the school or college direct or contact the Post 16 Service
- Continue to apply for apprenticeships if this is your preferred option and you meet the entry requirements. Do have a backup plan to register with a sixth form or college as the apprenticeship recruitment process could take up to six months

September 2023

- Book and attend enrolment at your chosen sixth form or college if you have decided to study elsewhere. If you missed enrolment, (this is where they check your ID and documents), contact the sixth form or college as soon as possible.
- Apply to the 16 to 19 Bursary Fund if you are eligible
- Do let us know if you intend to be home educated
- Do let us know if you have barriers to education, employment or training and need further guidance
- Complete the **Post 16 activity survey** with your new education, employment or training destination, or if you need guidance

Post 16 Service

Most young people in Southwark move on to education in a sixth form or further education college each year in the September after they turn 16, or they may start an apprenticeship or other employment with training. All school leavers must stay in some type of education or training until they are 18 or to the end of their academic year 13 if they are studying full time. To enable them to achieve a full level 3 qualification by the time they are 19.

In England you can leave school on the last Friday in June if you'll be 16 by the end of the summer holidays. You must then do one of the following until you're 18:

- stay in full-time education, for example at a college
- start an apprenticeship or traineeship
- spend 20 hours or more a week working or volunteering, while in part-time education or training.

We know that some 16 and 17 year old young people may find themselves out of education and we are here to help. The Post 16 service in Southwark Council works with young people not in education to make sure that they are offered advice and guidance to support them back into education. We work closely with colleges and training providers to find the right support for each young person to help them move forward with their career goals.

This can include exploring routes into courses, apprenticeships and traineeships based on each individual's starting point.

Please use our **Post 16 Survey** form to let us know what you are up to. If you tell us that you are not in education or training we will get in touch and signpost you or advise you on your options. You can also email us at post16service@southwark.gov.uk

Check the Southwark Post 16 website for latest developments and to stay connected as you progress towards **higher education or employment**

You can also find useful information at the **National Careers Service**

Information on Raising the Participation Age (RPA)

What is 'Raising the Participation Age' [RPA]?

All young people have a duty by the Education Skills Act (2008) to participate in education until their 18th birthday. Supported by parents/ carers, and schools, the Government expects each young person to make an informed decision about how they wish to participate.

Why was it introduced?

By staying in learning and training you can gain the qualifications and skills you need to help you to succeed. Advantages include:

- Making it easier to find and stay in a job
- Having the ability to earn and give you a greater choice of career paths
- Being able to compete in the future local job market; providing pathways to opportunities where you can develop your qualifications and skills further in order to support your future career aspirations for example, higher education (university) or higher apprenticeships
- You will have a greater chance to develop the knowledge and practical skills that employers are looking for.

Does this mean staying at school until I am 18?

Once you complete your GCSEs and secondary education, there are a number of options available for you to choose from:

- Continue in full time education or college
- Start a work based learning programme such as an apprenticeship, internship or a traineeship.
- Start full time work alongside part time learning which leads to an accredited qualification
- Volunteering for a minimum of 20 hours a week alongside part time learning which leads to an accredited qualification

What duty does Southwark Council have?

- Promote the effective participation in education and training of 16 and 17 year olds in our area with a view to ensuring that those persons fulfil the duty to participate in education or training
- Make arrangements to track the activity of 16 and 17 year olds, and identify those who are not participating in education or training or who have left provision, to enable us to offer support as soon as possible through the Post 16 Service
- Identify 18 year olds in-year 13 who need support to stay in education or find work, and recognise those who are receiving support from their Jobcentre Plus.

Choosing the right pathway for you

How to choose?

While you are in year 11 at school or being home educated, you may already have an idea about your future academic and career journey, such as applying for sixth form then higher education or a particular career. Some careers and university courses require you to have specific subject grades in accredited qualifications. They will ask to see your certificates as part of the entry requirements. When received keep your qualification certificates safe.

If you are unsure what you want to do in year 12 or 13, it is usually best to go with subjects you are likely to do well at and enjoy. You will still need to check course entry requirements, and find out what career path you can take with these subjects.

The following checklist may be very useful. This would enable you to create your career pathway plan. Learning how to make an informed choice, by asking:

- How does the chosen course develop your interests, skills-set and subject knowledge?
- Does the chosen course require course work and exams, what will the workload look like? What do I need to keep me motivated to keep learning?
- What are the progression routes, would the chosen course enable you to achieve your career goal?

- How much study time would you need in order to achieve a good result?
- What are the barriers to your learning that need to be removed, to keep you focused, and realise your own potential?
- What are your options? **The National Career Service** are available to guide you in the right direction.

Do speak to your careers adviser at school and ask the questions as soon as you can.

Southwark's Local Offer shows what's available in the borough for children, young people and adults (aged 0-25) who have Special Educational Needs and Disabilities. It includes up-to-date information on opportunities and services that are available to you. **See page 16**

This would help you to make an informed decision to continue in education anything from an entry level to a level 3 programme, A levels, BTEC, a T level qualification, or a level 2 intermediate apprenticeship. Remember to have a backup plan if you don't meet the entry requirements for your first choice, so you continue learning.

Advice about courses

If you are likely to leave school at the end of year 11 with no or few GCSEs, or other level 2 passes, you should still follow the check list.

If you have recently moved into the borough and find yourself out of education mid-year in year 12 or 13 you may explore a back on track college course or a traineeship.

While the labour market stabilises it is advisable to stay in full time education.

Short courses are designed to add to your attainment level, qualifications and skills-set and help you to get work ready.

Often, short courses are recommended at the end of the academic year, this is because there are limited progression routes into paid employment or an apprenticeship if you are under 18.

If you live in Southwark and missed the start date at sixth form or college or you have recently moved into the borough, and find yourself out of education get in touch with the post 16 service by email at post16service@southwark.gov.uk or complete the **Post 16 activity survey**.

Academic qualifications – A levels

Students now sit all A level exams at the end of two years of study, instead of taking modular exams throughout the course.

AS level results no longer count towards A level grades. No subject will have more than a 20% coursework component and most courses will be assessed entirely through exams.

Applied general qualifications BTECs level 1 to 3 or National Vocational Qualifications (NVQs)

These offer broad preparation for and introduction to a vocational area such as health and social care, travel and tourism, engineering, and performing arts. They combine academic study with practical learning.

Apprenticeships

Apprenticeships are a route for students who want to gain qualifications, progress in a chosen career and earn a salary. Apprenticeships combine paid work, with education. You must complete your portfolio and evidence you are learning this usually takes place at a college.

Apprenticeships are one to five years in length depending on the qualification level. Sometimes apprenticeships lead to a full time job. You will gain a nationally recognised qualification.

You would need to meet the eligibility criteria. Good references from your school to evidence you have job readiness skills such as good attendance and time management, able to follow instructions and work in a team. This also includes a document check for example your national insurance number, a valid passport or valid photo identification, and proof of address.

See the government's website
www.gov.uk/applyapprenticeship

T Levels qualifications

From academic year 2023/24 more colleges and sixths forms plan to offer technical qualifications to prepare you for a specific career route such as agriculture and animal care, business administration, construction, digital, education and child care, engineering, health and science, or hospitality.

Tech Levels are 2 year Level 3 qualifications - 3 months' work experience with the opportunity to grow your knowledge and skills. Equivalent to A levels; that lead to a specific occupation. You can progress on to apprenticeships, jobs and some universities after completion of Tech Levels.

Who will be delivering **T Levels from 2023/24**.

Traineeships

A traineeship is unpaid work experience with training. These are designed to help young people aged 16 to 24 years old. Though they are best explored when you have good GCSE grades and are out of education at the end of year 13 to gain the appropriate skills and experience needed to secure an apprenticeship or a full time job in-year 14.

Traineeships can last from six weeks up to six months. They may include English and Maths, and travel to different work sites. You would need to meet the eligibility criteria. Get your parent or guardian to help you check with the training provider, if this is right for you and ask about progression routes.

Apprenticeships

Apprenticeships give you the opportunity to work, learn and earn all at the same time.

You will work for a real employer alongside other experienced staff. You will be earning a salary, gaining valuable work experience and employability skills, and you will gain a qualification.

Types of apprenticeship

You can apply for different types of apprenticeships based on your current skills and qualifications:

- Intermediate level (level 2)
- Advanced level (level 3)
- Higher (level 4, 5 and 6)
- Degree (level 5, 6 and 7)

When can I start an apprenticeship?

If you live in England and are aged 16 or over, you can apply to be an apprentice. You can start an apprenticeship on the first day after the last Friday in June (official school leaving date in England) as long as you are 16 or become 16 before 1 September of that year. You will need to be living in England and not in fulltime education.

Entry requirements

Entry requirements are based on the level of the apprenticeship. Intermediate Level 2 apprenticeships will usually require 3 to 5 GCSEs grade 4 or above including English and Maths. Or the willingness to work towards level 2 English and Maths functional skills qualifications during the apprenticeship, and meet the desired skills and qualities as advertised.

Advanced level apprenticeships usually require five good GCSE grades 4 or above. Higher level apprenticeships require good GCSE grades 4 to 9, and a level 3 qualification such as BTEC level 3 or three A levels, or a two year T Level. Or a level 2 apprenticeship qualification with a year's work experience.

Remember to check if you meet the eligibility criteria. This may include asking if you can to work and train in the UK post 16. For example you would need a national insurance number, a bank account, a leave to remain status, or UK settled status.

How much will I earn?

The minimum wage for apprentices aged 16 to 18 is updated yearly on the website www.gov.uk/apprenticeshipsguide/pay-and-conditions

Training and qualifications

During your apprenticeship you will also receive training to gain a nationally recognised qualification in your chosen area. Your employer will be working with your training provider to ensure the programme is structured to support you to gain the skills you need for the job.

How do I find and apply for an apprenticeship?

When you finish year 11, then you can start an apprenticeship. Applying is easy with the find an apprenticeship website, the online vacancy site provided by the **National Apprenticeship Service**. You need to create an account, log all of your information and set preferences before applying, usually by completing an online application form and answering a few questions set by the employer.

If you are interested in applying for an apprenticeship check you meet the entry requirements www.findapprenticeship.service.gov.uk/apprenticeshipsearch

Case study

Simone Sewell, she/her
Customer Service Officer
Contact Centre

“When I finished my last A Levels, I didn’t know what I wanted to do after school, but knew that I needed to gain skills and work experience. A family member came across the advert for a level 3 apprenticeship with the Southwark Council call centre and suggested that I apply.”

While I was at school I struggled with anxiety and it was a great challenge to put myself through the apprenticeship recruitment process. Southwark Council saw my potential.

My apprenticeship was supposed to be 18 months but due to Covid and lockdowns it lasted an additional 10 months. I’ve been trained and worked on services such as Repairs, Switchboard, Environments & Leisure, Housing Advice and even Covid support. I periodically attended college and met my peers where I was empowered to participate in discussions putting my newly learnt skills to use.

I gained a qualification in Level 3 Housing and Property Management, and secured a role as a temp at Southwark Council. This has helped me boost my confidence, knowledge, and professional communication skills to assist residents, customers, and my colleagues in the call centre. Through accustomed procedures and processes I also provide training to new staff and apprentices.

In the near future I aim to secure my creative career ambition this would be a permanent role working within the events or marketing team with Southwark Council.

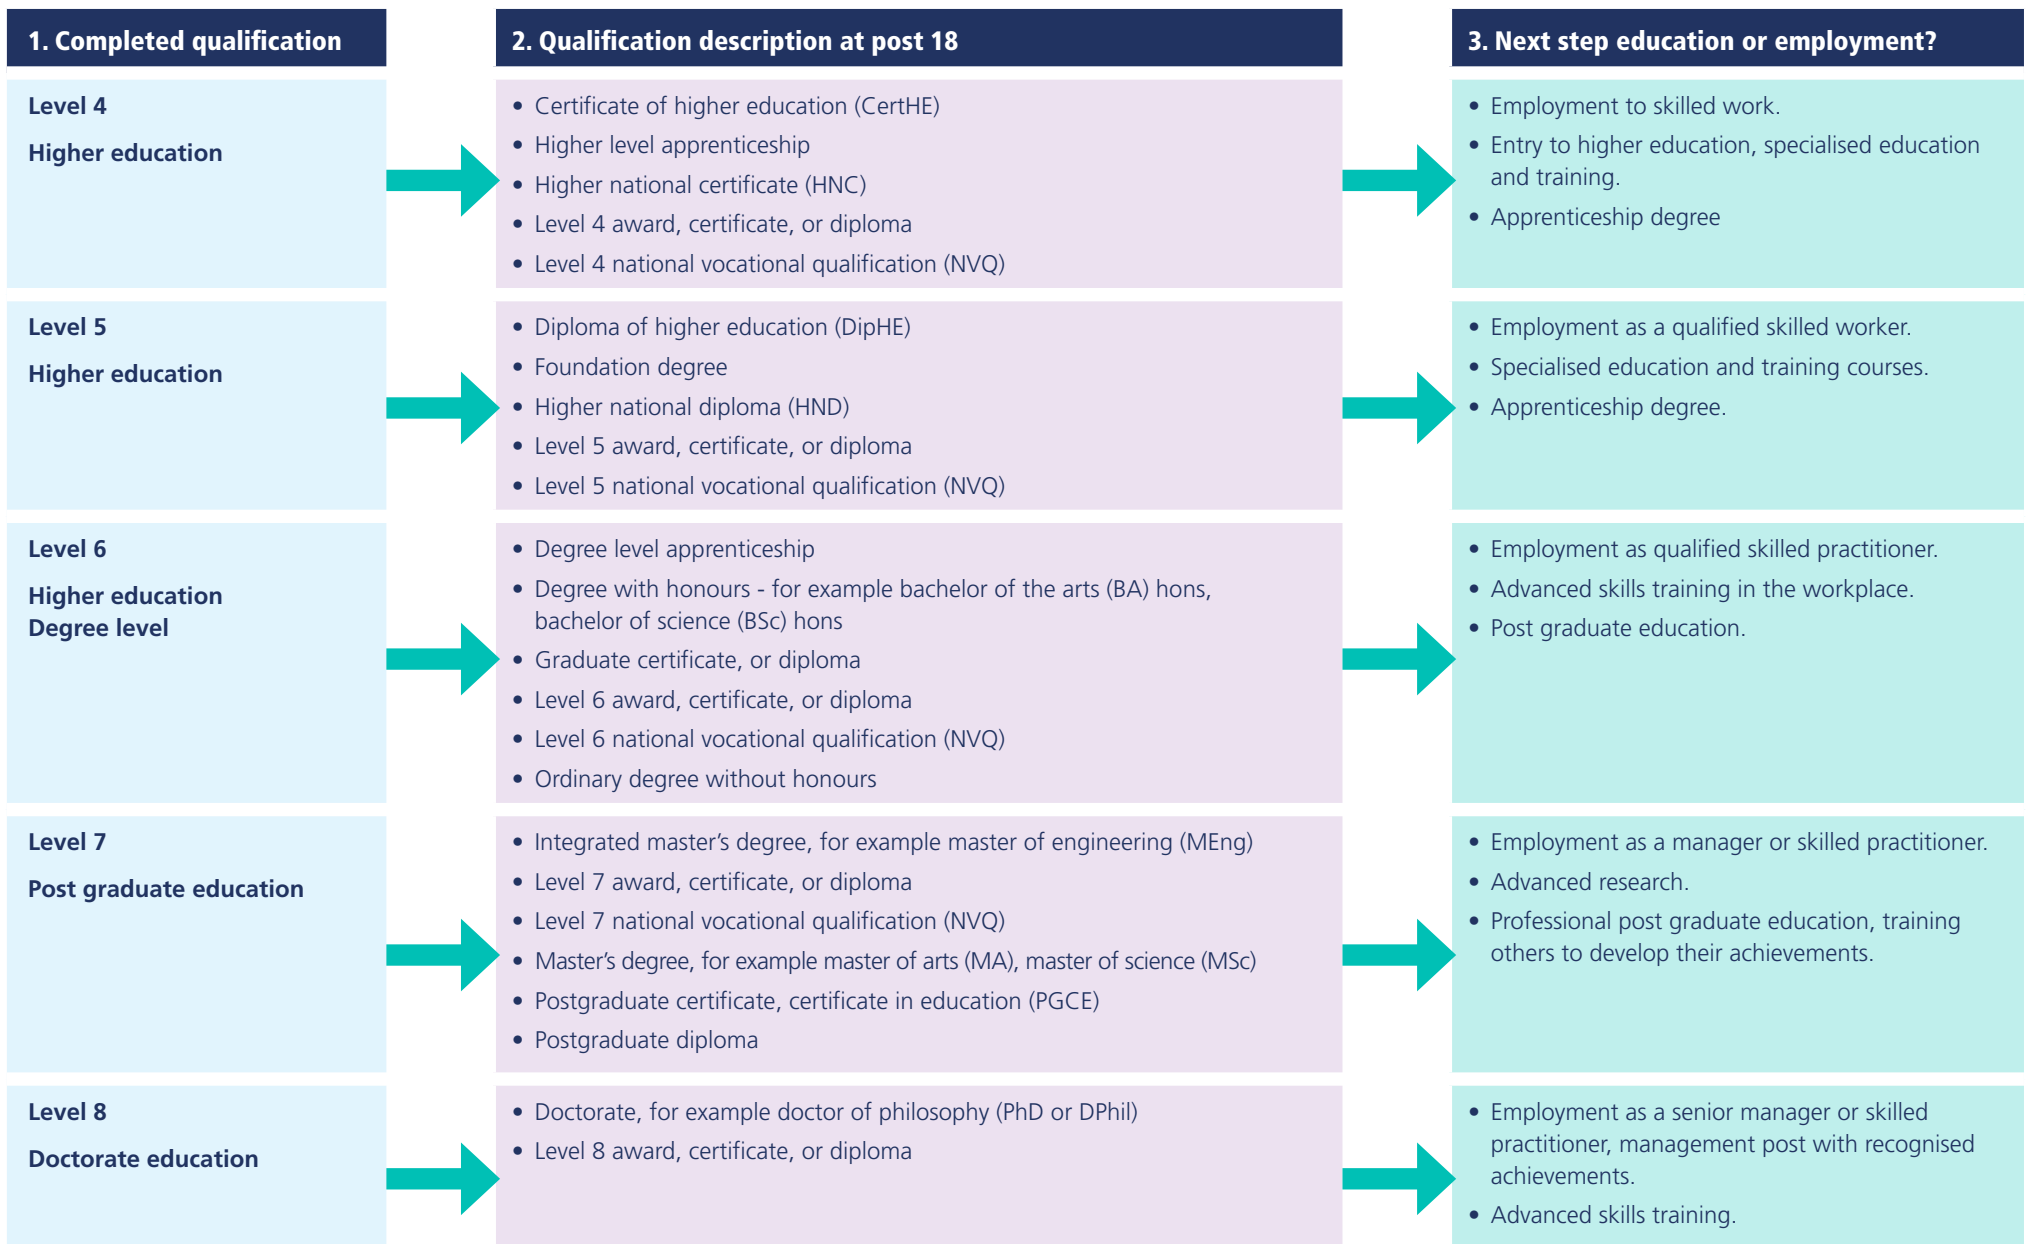

Which pathway is right for me?

1. Completed qualification	2. Qualification description at post 16	3. Next step education or employment?
Entry level 1 to 3	<ul style="list-style-type: none"> • Entry level award, certificate (ELC), or diploma • Entry level English for speakers of other languages (ESOL) • Entry level functional skills • Skills for Life 	Qualification can be taken at any age in order to continue or return to education or employment with training.
Level 1 Initial secondary	<ul style="list-style-type: none"> • First certificate, GCSE - grades 3, 2, 1 • Level 1 award, certificate, or diploma • Level 1 ESOL • Level 1 functional skills • Level 1 national vocational qualification (NVQ) 	Secondary level education entry into employment, further education, or an apprenticeship intermediate level.
Level 2 Continuation of secondary	<ul style="list-style-type: none"> • GCSE - grades 9, 8, 7, 6, 5, 4 • Intermediate level apprenticeship • Level 2 award or national, certificate, or diploma • Level 2 functional skills • Level 2 national vocational qualification (NVQ) 	Progression to employment. Continuation of education, or an apprenticeship intermediate or advanced.
Level 3 Further education	<ul style="list-style-type: none"> • A level, Access to higher education diploma • Advanced level apprenticeship • International Baccalaureate diploma • Level 3 award or national, certificate, or diploma • Level 3 national vocational qualification (NVQ) • Tech level 	<p>Progression to skilled work. Entry to higher education.</p> <p>Apprenticeship continuing at advanced or progress to a higher level.</p>

There will be specific requirements for courses and jobs, some may have higher entry requirements than others.

If you do not achieve a minimum of a grade 4 at GCSE in Maths and English or level 2 Functional Skills, you will be encouraged to continue studying Maths and/or English.

Where can you study or train?

At the end of year 11 you have a number of choices of where to study. It is worth doing some research into the ones you are interested in. You can find information on the internet. Open days or taster days are available to check and see whether you think sixth form or college is right for you.

School sixth forms

Schools sixth forms primarily teach A levels but some may offer vocational courses such as BTEC's and T levels.

Some offer resits in GCSE Maths and English with a core subject: forming a BTEC, vocational, or a T level Transition Programme, if you did not get a grade 4 or above the first time round. This pathway would prepare you for A levels, an apprenticeship or employment by the time you are 18.

School sixth forms are smaller than most sixth form colleges and further education colleges.

You don't usually have to wear school uniform but smart clothing may be required and you will need to attend every day.

Sixth form colleges

Sixth form colleges are for 16 to 19 year olds. They have on average 1,200 students studying from entry level up to A-levels and BTEC nationals.

They offer a wide range of courses including applied courses.

Although there are no sixth form colleges in Southwark there are a number in neighbouring boroughs that you can apply for.

Further education colleges (FE colleges)

FE colleges offer a broad range of courses at different levels including entry level, ESOL, GCSE's A levels, BTEC's, traineeships, apprenticeships and vocational and occupational courses.

FE colleges are large organisations and they may have more than one site. There is no upper age limit. **See pages 61 to 64** for all the in London

University technical colleges (UTCs)

If you know the sector you wish to pursue a career in and want to develop specialist skills you may apply to a UTC. Technical specialisms include engineering, manufacturing, health sciences, product design, digital technologies or built environment.

Training providers

Some training programmes are designed to add to your attainment level, or gain some qualifications, and add to your skills-set to help you to get work ready.

Often, short courses are recommended at the end of the academic year. This is because there are limited progression routes into paid employment or an apprenticeship if you are under 18, or if the local labour market is stagnant.

Many colleges offer training programmes to enable you to get back on track if you find yourself out of education mid year please email the post 16 service on post16service@southwark.gov.uk or complete the **Post 16 activity survey**. Any full time regulated qualification would benefit you in your career, enabling you to make an informed decision to fill in your skills gaps to achieve your career plan.

If you are unsure what you would like to do remember at the end of year 12 or 13, you could still do the CSCS (Construction Skills Certification Scheme), first aid, football coaching, or work experience during your holidays.

What comes next?

Your choices after you have completed your chosen pathway at 18

University

Some professions (e.g. architecture, teaching or medicine) require a degree. Many more employers now expect their staff to have high levels of education.

Going to university gives you the chance to study a subject you are passionate about. In higher education you can develop valuable skills to give you a wider range of career opportunities. University can offer an environment rich in social and cultural experiences - a chance to become more independent, broaden your horizons and try out new interests.

For a few people, choosing a subject to study is simple – you will either be clear about your career path and need a specific degree to follow or you have always had a passion for a particular subject. However, for most there is a bewildering variety of courses, many of which involve subjects that are not taught in schools or colleges. So you need to do your research to narrow your choices down.

For more information visit: www.ucas.com / www.theuniguide.co.uk

Higher and Degree Apprenticeships

A higher apprenticeship leads to a higher education level qualification (at level 4, 5, 6 or 7). Qualifications on offer include NVQ (National Vocational Qualification) level 4, HND (Higher National Diploma) and foundation degrees.

Degree apprenticeships offer a full bachelor's or master's degree. Apprenticeships at higher or degree level, could be up to six years.

For more information visit: nationalcareersservice.direct.gov.uk

Employment

When is the best age to start learning about employment rights?

Before young people enter the labour market they should know their rights to minimise the risk of becoming NEET (Not in Education, Employment or Training) in the future.

At 18 you can leave education and get a full time job. Some young people may start employment in-year 12 and 13 part time while they are studying, or full time with training.

If you are an employee in the UK you are expected to follow the company rules and procedures, and your employer must follow and respect your employment rights.

Be prepared and know where to go to find out more about: **minimum wage; work time regulations; young workers; work trials;** these should be monitored by the job centre – some young people over 18 when they apply independently for warehousing or café jobs online may be offered a work trial) to help you to make an informed decision before signing up to low wage apprenticeships / work trials with no pay check how this may affect your family's benefits or the household income. If you are a worker get to know your rights about pay, holiday entitlement, sick pay, maternity pay and leave, paternity pay and leave, and notice periods - ask your employer or your employment agency for a **contract of employment;** and pay / weekly working hours **national insurance contributions.**

Some young people will go on to work for the family business in year 12 and 13 you still have worker rights. The rules are different if you are **self employed.**

Other routes

There are other routes you can follow once you have completed further education or an apprenticeship.

See the “Which pathway is for me?”

Table on page 13 to identify your next step or to find a progression route.

You can take a gap year, look for an internship, work and take a professional qualification or a distance learning course.

For more Information visit:

Executive Principal:

Mr Matt Jones OBE

 020 7407 6877

 www.arkglobe.org

DfE number: 210/6912

 sixthform@arkglobe.org

Specialisms: Maths and performing arts

 Harper Road, SE1 6AF

Courses and subjects offered:

A Level subjects

- ▶ Biology
- ▶ Chemistry
- ▶ Computer Science
- ▶ Economics
- ▶ English Literature
- ▶ French
- ▶ Geography
- ▶ Government and Politics
- ▶ History
- ▶ Mathematics
- ▶ Media Studies
- ▶ Physics
- ▶ Psychology
- ▶ Sociology

Level 3 subjects

- ▶ Professional Pathways in Business (BTEC level 3)
- ▶ Professional Pathways in Sport and Exercise Science (BTEC level 3)

GCSE resit subjects

- ▶ English
- ▶ Mathematics

How to apply:

For full details on how to apply, please visit the [academy's website](#).

Academic entry requirements:

- ▶ Five grades 4-9 including English and Maths at GCSE for BTEC.
- ▶ Five grades 5-9 including English and Maths at GCSE for A level - individual subjects have specific entrance requirements. Please view the academy's website for further details.

Published admission number:

The published admission number for year 12 is ten. This is the number of places which will be offered on an annual basis to eligible external applicants only.

6th form open day/evening dates

For information please email
sixthform@arkglobe.org

The Schools

Oversubscription criteria 2023 summary:

Contact academy for full criteria

If year 12 is oversubscribed then, after the admission of students with special educational needs where the school/academy is named on the statement or education, health and care plan, the criteria will be applied in the order in which they are set out below to determine which student should be given priority for the places available on chosen courses, providing they have met the sixth form entry and course requirements:

1. Looked after children and children who have previously been a 'Looked After Child' but immediately following this became subject to adoption, a child arrangements order or special guardianship order, including those who appear (to Ark Schools) to have been in state care outside of England and ceased to be in state care as a result of being adopted.
2. Children of staff at the school where there is a demonstrable skill shortage.
3. Children who, at the time of admission, have a sibling who attends the school. For this purpose, 'sibling' means a whole, half or step-sibling or an adopted child resident at the same address.
4. Children of staff in the school who have been employed at the academy for two or more years at the time the application is submitted.
5. Distance measurement by a straight line route. A child's home will be at the address at which the child normally resides and which has been notified to the academy and other relevant agencies as being the child's normal place of residence.

WHAT IS IT LIKE TO STUDY HERE?

“I have met amazing members of staff who work at their jobs diligently and without fail, are always ready to go on an extra mile for the students they teach. The enthusiasm from teachers creates a fun and encouraging environment for learning.”

Student,

 sixthform@walworthacademy.org

 Shorncliffe Road, SE1 5UJ

Courses and subjects offered:

A Level subjects

- ▶ Art
- ▶ Biology
- ▶ Chemistry
- ▶ Economics
- ▶ English Literature
- ▶ French
- ▶ Further Maths
- ▶ History
- ▶ Geography
- ▶ Maths
- ▶ Photography

- ▶ Physics
- ▶ Psychology
- ▶ Sociology
- ▶ Spanish

Level 3 subjects

- ▶ BTEC Applied Science
- ▶ BTEC Business Studies
- ▶ BTEC IT Practitioner
- ▶ BTEC Performing Arts

How to apply:

For full details on how to apply, please visit walworthacademy.org/sixth-form/applications

Academic entry requirements:

- ▶ Minimum five grades 9 to 5 GCSEs including English and Maths at grade 4 for entry. A level pathway will require grade 6/7 in named related subjects. Please visit the academy's website at walworthacademy.org/sixthform/applications for full details of the specific entry criteria for each.

Published admission number:

The published admission number for year 12 is 30. This is the number of places which will be offered on an annual basis to eligible external applicants only. If fewer than 90 of the academy's own year 11 pupils transfer into year 12, additional external pupils will be admitted until year 12 meets its capacity of 120.

6th form open day/evening dates

Please contact the academy for further information

The Schools

Oversubscription criteria 2023 summary

Contact academy for full criteria

Where the academy is named on a pupil's statement of special educational needs or education health and care plan, that child will be admitted by the academy. If the number of applications for admission to the sixth form is greater than the published admission number, applications will be considered as follows:

1. Looked after children and children who have been previously looked after, including internationally adopted previously looked after children.
2. Children of staff at the school where there is a demonstrable skill shortage. Children of members of staff will have priority in the oversubscription criteria if the staff member is filling a post for which there is a demonstrable skill shortage. Priority will be limited to one place for each form of entry in any year.
3. Children who at the time of the admission have a sibling who attends the academy. For this purpose "sibling" means a whole, half or stepbrother or stepsister or an adopted child resident at the same address.
4. Children of staff in the school. Where there is no demonstrable skill shortage, priority may be given where the academy is oversubscribed to a child of a person who will have been employed in the academy for two or more years at the time the application for admission is made. Priority will be limited to one place for each form of entry in any year.
5. Distance measurement using a straight line route. A child's home will be the address at which the child normally resides and which has been notified to the academy and other relevant agencies as being the child's normal place of residence.

WHAT IS IT LIKE TO STUDY HERE?

“ARK Walworth Academy welcomed me and stretched me to be my best self. My course, work experience and teacher support made me believe in myself in a way I didn't think I could. Waiting to hear about my BBC apprenticeship, fingers crossed.”

GCSE resit subjects

- ▶ English
- ▶ Mathematics

How to apply:

For full details on how to apply, please visit the academy's [website](#).

Academic entry requirements:

A levels

- ▶ All students are expected to achieve a minimum of 5 GCSEs grades 5 to 9 including English Language and Mathematics with at least a grade 6 in the subjects they wish to study. Some subjects have individual minimum entry requirements which are set out in the subject information sheets.

Vocational

- ▶ Students must achieve at least five higher grades, including Mathematics and English Language, with grade 5 in the vocational subjects they wish to study.
- ▶ Most students are expected to study the equivalent of three A levels in year 12 which are reviewed at the end of the academic year before progressing into year 13.

6th form open day/evening dates

Please contact the college for further information

The Schools

Published admission number:

The published admission number for year 12 is 50. This is the number of places which will be offered on an annual basis to eligible external applicants only. If fewer than 100 of the academy's own year 11 pupils transfer into year 12, additional external pupils will be admitted until year 12 meets its capacity of 150.

Oversubscription criteria 2023 summary:

Contact college for full criteria

If year 12 is oversubscribed then, after the admission of students with special educational needs where the school/academy is named on the statement or education health and care plan, the criteria will be applied in the order in which they are set out below to determine which student should be given priority for the places available on chosen courses, providing they have met the sixth form entry and course requirements:

1. Looked after children and previously looked after children, including internationally adopted previously looked after children

2. Children who, on the date of their proposed admission, will have a sibling who will then be a pupil at Bacon's College

3. Children of qualifying members of staff

4. Children living at a permanent address south of the River Thames with a South East London (SE) or South West London (SW) postcode on the basis of their proximity to the College – closest first

5. Children living in any other postal area on the basis of their proximity to the College – closest first

WHAT IS IT LIKE TO STUDY HERE?

“Studying at Bacon's College is great because of the support from teachers and other staff. The opportunities provided in the sixth form to contribute to the community in the mediation team or the leadership team really help you to develop as a person. The academic and emotional support make you feel well prepared for the future. There are lots of opportunities for work experience and internships so you can really understand your options after sixth form, whether you want to go to university or an apprenticeship.”

The Schools

Published admission number:

The published admission number for year 12 is 20. This is the number of places which will be offered on an annual basis to eligible external applicants only. If fewer than 80 of the academy's own year 11 pupils transfer into year 12, additional external pupils will be admitted until year 12 meets its capacity of 100.

Oversubscription criteria 2023 summary:

Contact academy for full criteria

If year 12 is oversubscribed then, after the admission of students with special educational needs where the school/academy is named on the statement or education, health and care plan, the criteria will be applied in the order in which they are set out below to determine which student should be given priority for the places available on chosen courses, providing they have met the sixth form entry and course requirements:

1. Looked after children and previously looked after children, including internationally adopted previously looked after children.

2. This category will include all candidates who do not fall into any of the oversubscription categories above and will be selected by waiting list order and subject to availability.

Tie breaker - Where there are more applications than places remaining in any of the oversubscription categories, the order in which places will be allocated will be determined by the distance between the child's home address and the academy, with those living nearest receiving highest priority. Distance will be measured in a straight line from the applicant's home address.

Where two or more children live an equal distance from the academy (including where they live in the same multi-dwelling building), the order in which places are allocated will be determined by random allocation supervised by someone who is independent of the academy.

WHAT IS IT LIKE TO STUDY HERE?

“The experience at Harris Boys’ Academy Sixth Form is a faultless one: impeccable teaching and a genuine care for students to succeed and achieve to the best of their ability.”

Oversubscription criteria 2023 summary:

Contact academy for full criteria

If year 12 is oversubscribed then, after the admission of students with special educational needs where the school/academy is named on the statement or education, health and care plan, the criteria will be applied in the order in which they are set out below to determine which student should be given priority for the places available on chosen courses, providing they have met the sixth form entry and course requirements:

1. Children in public care (looked after children) or children who were looked after but ceased to be so because they were adopted (or became subject to a residence or special guardianship order) i.e. previously looked after children (PLAC) or internationally adopted previously looked after children (IAPLAC). See Note 5 of Kingsdale's admission policy.
2. Where professional evidence indicates that there are particular psychological, medical or social needs which the school's learning support faculty agrees only Kingsdale has the capability of addressing or meeting and significant difficulties would arise were the applicant to attend a different school.
3. Students will be ranked by their average point score for their best five qualifying subjects for the course they wish to study.
4. Random allocation. This process will be supervised by a person not employed by or independent of the school (see Note 8 of Kingsdale's admission policy).

WHAT IS IT LIKE TO STUDY HERE?

“Opportunity is the word that defines Kingsdale. It is a school that recognises hard work and then rewards it more than proportionately. Throughout my two years sixth form study I have been afforded various opportunities from learning to fly to doing work experience at the United Nations. The high standards set by Kingsdale have enabled me to study at Oxford University next year.”

Oversubscription criteria 2023 summary:

Contact academy for full criteria

If year 12 is oversubscribed then, after the admission of students with special educational needs where the academy is named on the statement or education, health and care plan, the criteria will be applied in the order in which they are set out below to determine which student should be given priority for the places available on chosen courses, providing they have met the sixth form entry and course requirements:

1. Looked after children and children who were looked after but ceased to be so because they were adopted (or became subject to a residence/special guardianship order), including internationally adopted previously looked after children

2. Children who are eligible for the pupil premium

3. Children for whom it is essential that they be admitted to the academy because of a significant medical or social need

4. Siblings of students who will be registered students at the school on the first day of the term when the applicant student would be joining the academy

5. Children of staff employed for at least two years at the school or recruited to meet a skills shortage

6. Children who live nearest to the academy

Oversubscription criteria 2023 summary:

Contact academy for full criteria

If year 12 is oversubscribed then, after the admission of students with special educational needs where the school/academy is named on the statement or education, health and care plan, the criteria will be applied in the order in which they are set out below to determine which student should be given priority for the places available on chosen courses, providing they have met the sixth form entry and course requirements:

1. Looked after Catholic children or looked after children in the care of Catholic families and previously looked after Catholic children who have been adopted or who have become the subject of a residence or guardianship order or Catholic children who appear (to the admission authority) to have been in state care outside of England and ceased to be in state care as a result of being adopted and who meet the academic entry requirements

2. Other Catholic applicants who submit their application by the given deadline and who meet the academic entry requirements

3. Other looked after children and other previously looked after children who have been adopted or who have become the subject of a residency or guardianship order or children who appear (to the admission authority) to have been in state care outside of England and ceased to be in state care as a result of being adopted and who meet the academic entry requirements

4. Other applicants who wish to pursue their education in a Christian context, who support the Catholic ethos of the college and who submit their application by the given deadline and who meet the academic entry requirements

In the event of oversubscription in any of the above categories, as long as all students meet the academic entry criteria by subject, then priority will be given to students who firstly have a sibling attending the college and following that by students who live nearest to the college.

How to apply:

For full details on how to apply, please visit the school's [website](#).

Academic entry requirements:

Academic A level route

- ▶ Both internal and external students must gain a minimum of seven GCSE grades 5 to 9 including English and Maths and grade 6 in the subject to be studied
- ▶ Both internal and external students must achieve the subject specific requirements as stated in the school's course guide (available on the school's website). Typically, this is a GCSE grade 6 in the subject to be studied at A level.

Vocational BTEC route

- ▶ Internal and external students must gain a minimum of grade 5 in English and Maths and three other GCSEs grades 5 to 9

Published admission number:

The published admission number for year 12 is 30. This is the number of places which will be offered on an annual basis to eligible external applicants only. If fewer than 70 of the school's own year 11 pupils transfer into year 12, additional external pupils will be admitted until year 12 meets its capacity of 100.

Oversubscription criteria 2023 summary:

Contact school for full criteria

If there are more external applicants who meet the minimum level of attainment than there are places available, places will be offered conditionally (subject to an applicant meeting the minimum level of attainment in their actual GCSE results) by course in the following order of priority:

1. Catholic looked after children and looked after children including internationally adopted previously looked after children and all previously looked after children, including those children who appear (to the admission authority) to have been in state care outside of England and ceased to be in state care as a result of being adopted.
2. Applicants who are baptised Catholics. Applicants will be required to submit a supplementary application and the original baptism certificate.
3. Applicants with a brother or sister on roll at the time of application. This includes half, step and adopted siblings living permanently at the same address. It does not include cousins.
4. All other applicants.

If there are more applicants than places available in any of the criteria stated at 1 - 4 above, remaining places will be offered by the drawing of lots.

Applicants not offered a place at the sixth form may request that their name is placed on the waiting list for one term.

In the event that a course is oversubscribed (typically more than 15 successful applicants to an A level class, 12 students per BTEC class) places will be offered on alternative courses that have spaces available. Students will fill a course allocation in order of GCSE average points score (APS) order in best eight GCSEs. Every effort will be reasonably made to accommodate all successful applicants' combination of course choices.

WHAT IS IT LIKE TO STUDY HERE?

“Joining STAC sixth form was the best decision I made for my education after year eleven. I’ve had so much support whilst being surrounded by likeminded, ambitious peers and supportive teachers with high expectations of us all. The opportunities for work experience, UCAS advice, enrichment experiences has been amazing as it has built my confidence enormously.”

Further information

Financial Support

As a 16 to 19 year old student you may be able to get help with money. There are different types of funding you may be able to claim.

16 to 19 bursary fund while you are at College

Check eligibility criteria with the sixth form or college. You can ask for a bursary form at enrolment day.

The college would ask you to provide evidence when you complete the application form. If you do not meet the requirements or provide the evidence within the requested timeframe you may not get a bursary.

There are two types of 16 to 19 bursary:

Vulnerable student bursary

You could get a bursary worth up to £1,200 depending on your circumstances.

See 16 to 19 Bursary Fund guide 2022 to 2023 academic year.

This group includes:

- People in care
- Care leavers
- People claiming income support
- Disabled young people who receive Employment Support Allowance and Disability Living Allowance

Discretionary bursary

You could get a discretionary bursary if you need financial help but don't qualify for a vulnerable student bursary. Your education or training provider decides how much you get and what it's used for.

Successful applicants of this bursary receive funds for course related expenditure if the household annual income is £28000 or below.

Students must meet the residency criteria in [ESFA funding regulations](#) for post16 provision.

How is your bursary is paid?

Your education or training provider will decide how you get your bursary. You might be:

- Paid in full or in instalments
- Paid through a bank account
- Given things like a travel pass, free meals or books instead of money

Your provider will set conditions that students should meet to receive a bursary for example, good behaviour and 95% attendance. Your bursary could

be stopped if you break their rules. Remember to check the bursary eligibility criteria with the sixth form or college.

For more information please visit www.gov.uk/guidance/16to19educationfinancialsupportforstudents

Benefits

The general rule on benefits is that if you are under 18 you cannot make a claim for any benefits.

Your parents/carers will still get any child benefit or other benefits they already receive as long as you are under 19 and in full time education. If you are not engaged, and not meeting the Raising the Participation Age (RPA) requirements, some benefits may cease.

If however you are living away from your parents, out of necessity, or have family to support, you may be able to make a claim.

For more information contact your local Job Centre Plus **0345 606 0234**.

Financial Support

Care to learn

You can claim Care to Learn if you are under 20, caring for your own child and doing a school and college course or training programme that receives public funding (fathers are eligible if they are the main carers). An application can be made as soon as you have a confirmed offer of a course.

For more information please go to www.gov.uk/care-to-learn

Dance and Drama Awards (DADA)

These are available at a number of accredited dance and drama schools. The professional courses cover acting, dance, musical theatre and production skills. You must be 16 or over and show talent and a likelihood to succeed in the industry.

A Dance and Drama Award can help you pay for your tuition fees and towards living costs. The amount you get depends on your household income and where you live and study.

For more information on these awards check: www.gov.uk/dance-drama-awards

Other support

Anxiety support

Anxiety support young people can directly access The Nest – which is the Southwark commissioned emotional wellbeing hub

Young Carers

Imago provide support to young carers
[www.imago.community/Childrenand Young-People/SouthwarkYoungCarers](http://www.imago.community/ChildrenandYoungPeople/SouthwarkYoungCarers)

Travel

Children aged 16 to 17 can get free and discounted travel on some TfL transport services with a Zip Oyster photocard.

A parent or guardian must apply for a 16+ Zip Oyster photocard if their child is under 18.

If you're 18, you must apply for your 16+ Zip Oyster photocard and create your own [photocard web account](#).

When you apply, you agree that you or the Zip Oyster photocard holder will comply with our [Young Person's Behaviour Code](#). If you or the photocard holder doesn't, we can withdraw the [photocard](#).

COVID-19? Or maybe
something personal?**

**Whatever you want to talk
about, you can talk to us!**

The Nest is a FREE and confidential mental wellbeing service offering advice and support to people aged 11 – 25 who live in Southwark.

Our team of therapists can offer you up to 12 weeks of one-to-one support - either face-to-face or remotely.

Our face-to-face support is based at our hub in Peckham. You don't need an appointment. Drop in anytime between Tuesday & Thursday, 15:30 - 17:30 and Saturday, 10:30 - 14:30 for a friendly chat.

All meetings and messages are confidential.

If you can't travel to our hub, chat to us on the freephone number below or email us.

We'll get back to you about how best we can support you. If you need immediate advice, don't hesitate, call
