CONSULTATION FEEDBACK

Following numerous consultations in conjunction with an online survey, the key items of feedback were as below:

• 3 key views over the Lake, Oval and Playground are very well received.
• The footpath along the edge of the lake should not continue along the front of the café as pedestrian traffic may disrupt people sitting outside.
• Landscaping around the edge of the lake should be improved to allow closer access to lake edge.
• Baby changing and child urinals to be incorporated into toilets given that the park is often used by families and local schools.
• Covered external spaces are of high value to dog walkers and users of the park.
• The pavilion should be very transparent and provide views from different approaches within the park.
• Park offices should have as many views out as possible and be located in an easily approachable part of the building.
• Bin stores should be located internally to reduce their visual impact.
• The Pavilion should create a landscaped space between itself and the CGP gallery to connect both buildings.

REVISED AMENITIES

Following the feedback from consultation the pavilion will now include the following amenities:

• 4 No. Female cubicles (1 No. enlarged cubicle for baby-change).
• 4 No. Male cubicles.
• 2 No. Urinals and 1 No. Child urinal.
• 1 No. Disabled toilet with baby-change.
• Café space catering for 50 internal covers and approximately 100 external covers.
• Kitchen area that includes food storage and bin stores.
• Flexible meeting space within main café for approximately 10 people.
• Recessed canopy’s on 2 sides to create informal shelter and seating areas.
• Office space for 6 Park Staff including 2 No. bike racks and 1 No. shower room with toilet.
• Informal meeting space for 4 people within office.
• External seating area’s allowing a good view over the playground.
• Secure lakeside seating area.
• Concertina shutters will ensure all glazing is secure after dark.
