COTTRELL AND VERMEULEN

We have been working in South and Greater London for 30 years, completing a number of school, community and housing projects, from small-scale but impactful community projects to large masterplans or framework design consortia.

We immerse ourselves in the communities we design for to ensure that designs are suited to our client's needs - from observing prayer and offerings at the Bhaktivedanta Manor Temple, to staying in college accommodation to understand how to improve ways of living, or hosting student design sessions with the schools we work with.

This helps us define a project vision together, understand what interventions and spaces will have the greatest impact in the long term, and make them integral to the project.

We look forward to working with Pynfolds residents to integrate new homes into the existing estate in a sensitive, contextual and positive way.
