

Inspector Advice on Statements of Common Ground (11 March 2021)

The examination website identifies that there are potentially a number of statements of common ground with representors on the New Southwark Plan. It is entirely a matter between the Council and representors as to whether they can arrive at such a statement.

In order for the examination to move forward and to assist the Inspectors, it would be helpful if any statements of common ground relating to the Part 1 hearings (Strategy and Policies) could be signed/agreed by 26 March 2021. In order to prepare for the Part 2 hearings (Sites and Plan Delivery) the Inspectors would wish to receive any relevant statements of common ground no later than 5pm on 6 April 2021 unless there is a specific reason for its delay which has been agreed with the Inspectors.
