

CAMBERWELL POCKET SPACES

There are a large number of public spaces, roads and laneways throughout the town centre that are quiet, neglected or underused. We think that many of these spaces can be improved and add to the vibrancy and appearance of Camberwell.

This could mean additional landscaping, new seating, improved street lighting or redesigning the space.

We have undertaken an audit of these pocket spaces and set a priority for improvements as shown below.

**Priority one** spaces includes Artichoke Place and Coldharbour Place

**Priority two** includes Datchelor Place, Mary Boast Walk, Grove Lane and Selbourne Place.

**Priority three** including Orpheus Street and Wren Road.

What's next?

Once we have agreed the priority of improvements further design work will be commenced. There will be further opportunities to engage with us as this design process progresses.
