‘C2’ review

- The strategic parking project programme included a review of section of the Borough ‘C2’ parking zone to assess the times of operation of that part of the zone, in response to concerns that the new Castle Centre may have the potential to increase parking demand in nearby streets outside of the existing zone hours.

- It was agreed at the meeting held 5 October 2016 that Borough, Bankside and Walworth Community Council approve the following recommendations:

  Make no changes to the existing operational times (Monday to Friday, 8.30am to 6.30pm) of the Borough ‘C2’ parking zone.

- The review identified locations within the zone where modifications are considered necessary to improve parking layouts. Officers reviewed the existing restrictions within the zone and considered comments made through the informal consultation held with Councillor Noakes.

- The aim is to increase parking where safe to do so and upgrade existing single yellow lines to double yellow lines where parking is unsafe.

Proposals

- To extend existing parking bays and to install new parking bays
- To convert single yellow line to double yellow lines
- Remove unnecessary signage
