Foreword

A message from Cllr Jasmine Ali,

Deputy Leader and Cabinet Member for Children, Education and Refugees

Dear student

Your future after Year 11

In the coming months you will be making important choices about what you will do after year 11. We want to make sure you have either a college place, a job, or training to go to after school.

This is such an exciting time and I am sure that you will find the content of this prospectus a valuable source of information that will guide you to make the best choices for your future.

We are proud of our post 16 offer in Southwark and want you to know that we are working hard to make it even better. Our Southwark 2030 vision is ambitious for the future and an important part of that plan is to make sure every young person in Southwark benefits from the opportunities to achieve their future goals. Right now, we are working in partnership with colleges, employers and schools to provide you with as many opportunities as we can.

Our Youth Deal is there to ensure that our education, employment, youth services and the youth parliament work together to ensure young people have a say and get the support they need to succeed. Our post 16 offer is an important part of this. Young people can access all of the information

and support on youth related services and activities via our digital information platform **One Hub**. Our young people's opportunities webpage empowers young people to achieve their participation age to stay in education or find employment with training, our website gives you information about opportunities such as: **Employment, training, careers information, volunteering and business support for young people**.

In the meantime, this prospectus will help you through the process. It tells you all about the options available to you in Southwark while you are in year 12 and 13.

Whether you want to go on to A Levels, do a technical or professional course, start an apprenticeship, or work and train. Whatever your future holds, there's something in Southwark for you.

Do have a look at the great apprenticeship scheme the council runs. As an apprentice you can earn and learn at the same time. And every year we offer lots of different placements.

As a Southwark Council apprentice, you will work towards a nationally recognised qualification, and will get the London Living Wage. If you are interested, you can find out more at **Southwark apprenticeships**.

Don't forget each sixth form has its own application process, either via its website or a specific form, so make sure to check each school's individual page in this prospectus.

We encourage you to follow the post 16 timetable **see pages 5 and 6**; apply in advance, attend open days so that you can tour the sixth forms or colleges and meet the teachers.

Whatever you choose to do, the most important thing is to spend some time discussing with your school's careers adviser, teachers and family or carers, to decide what will be right for you. This is your chance to express your skills, interests and passions!

I would like to take this opportunity to wish you the very best at this exciting time.

Don't forget that the council is always here to offer you advice and support. If you need help with what you are thinking of doing please contact our Post 16 Service at **Post16Service@southwark.gov.uk** or **Post 16 Activity Survey**.

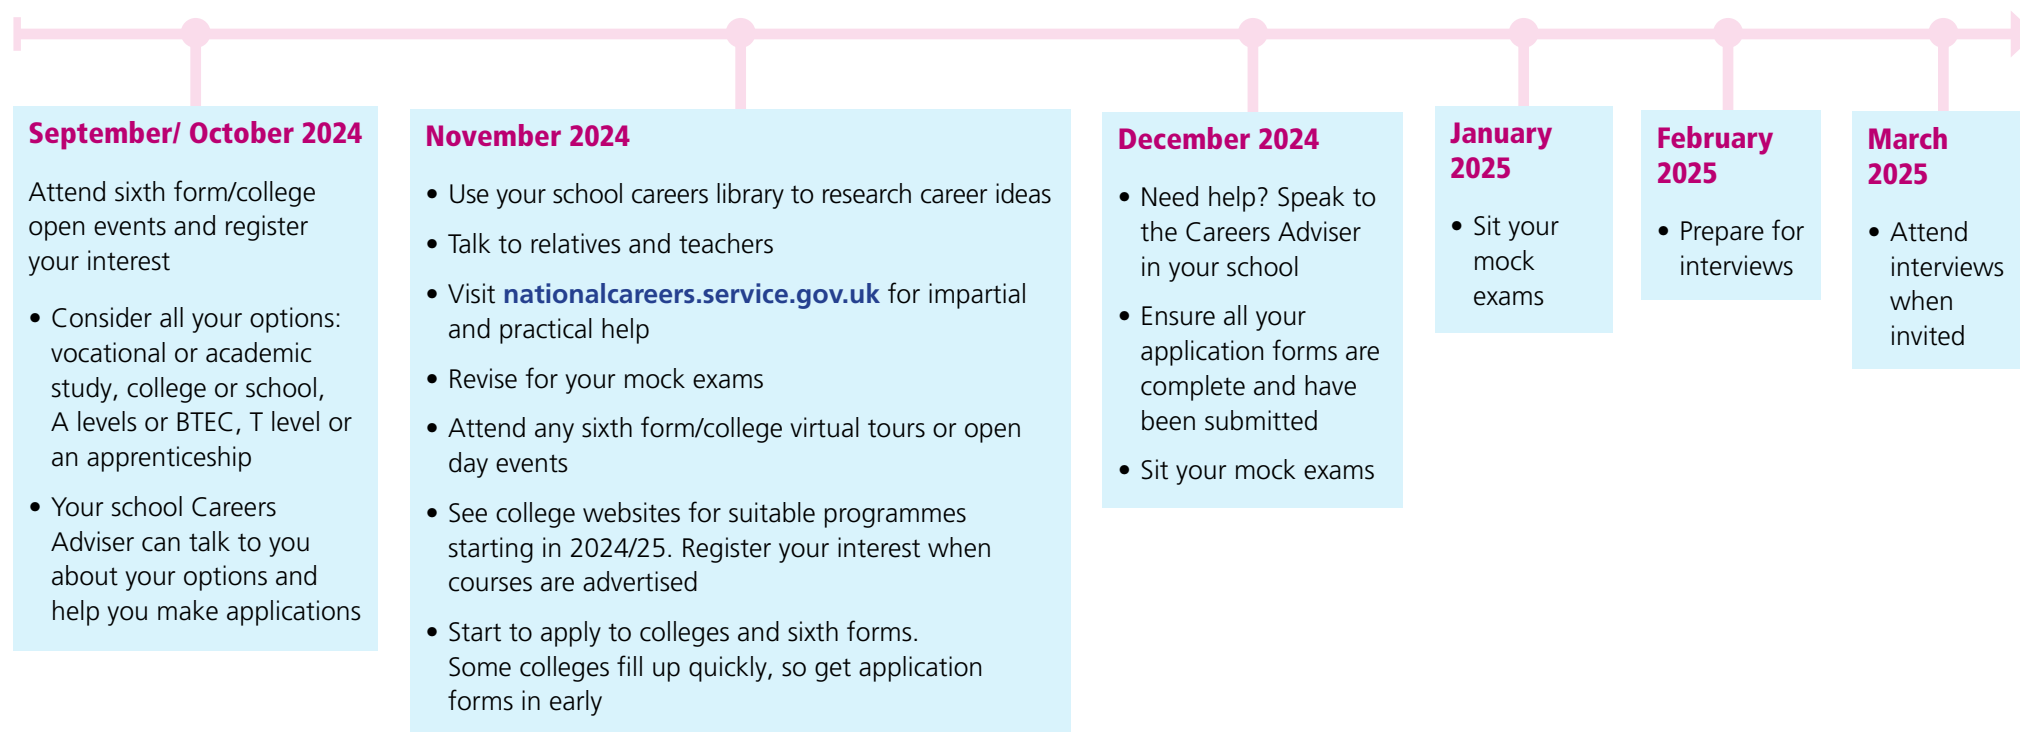

Your choices

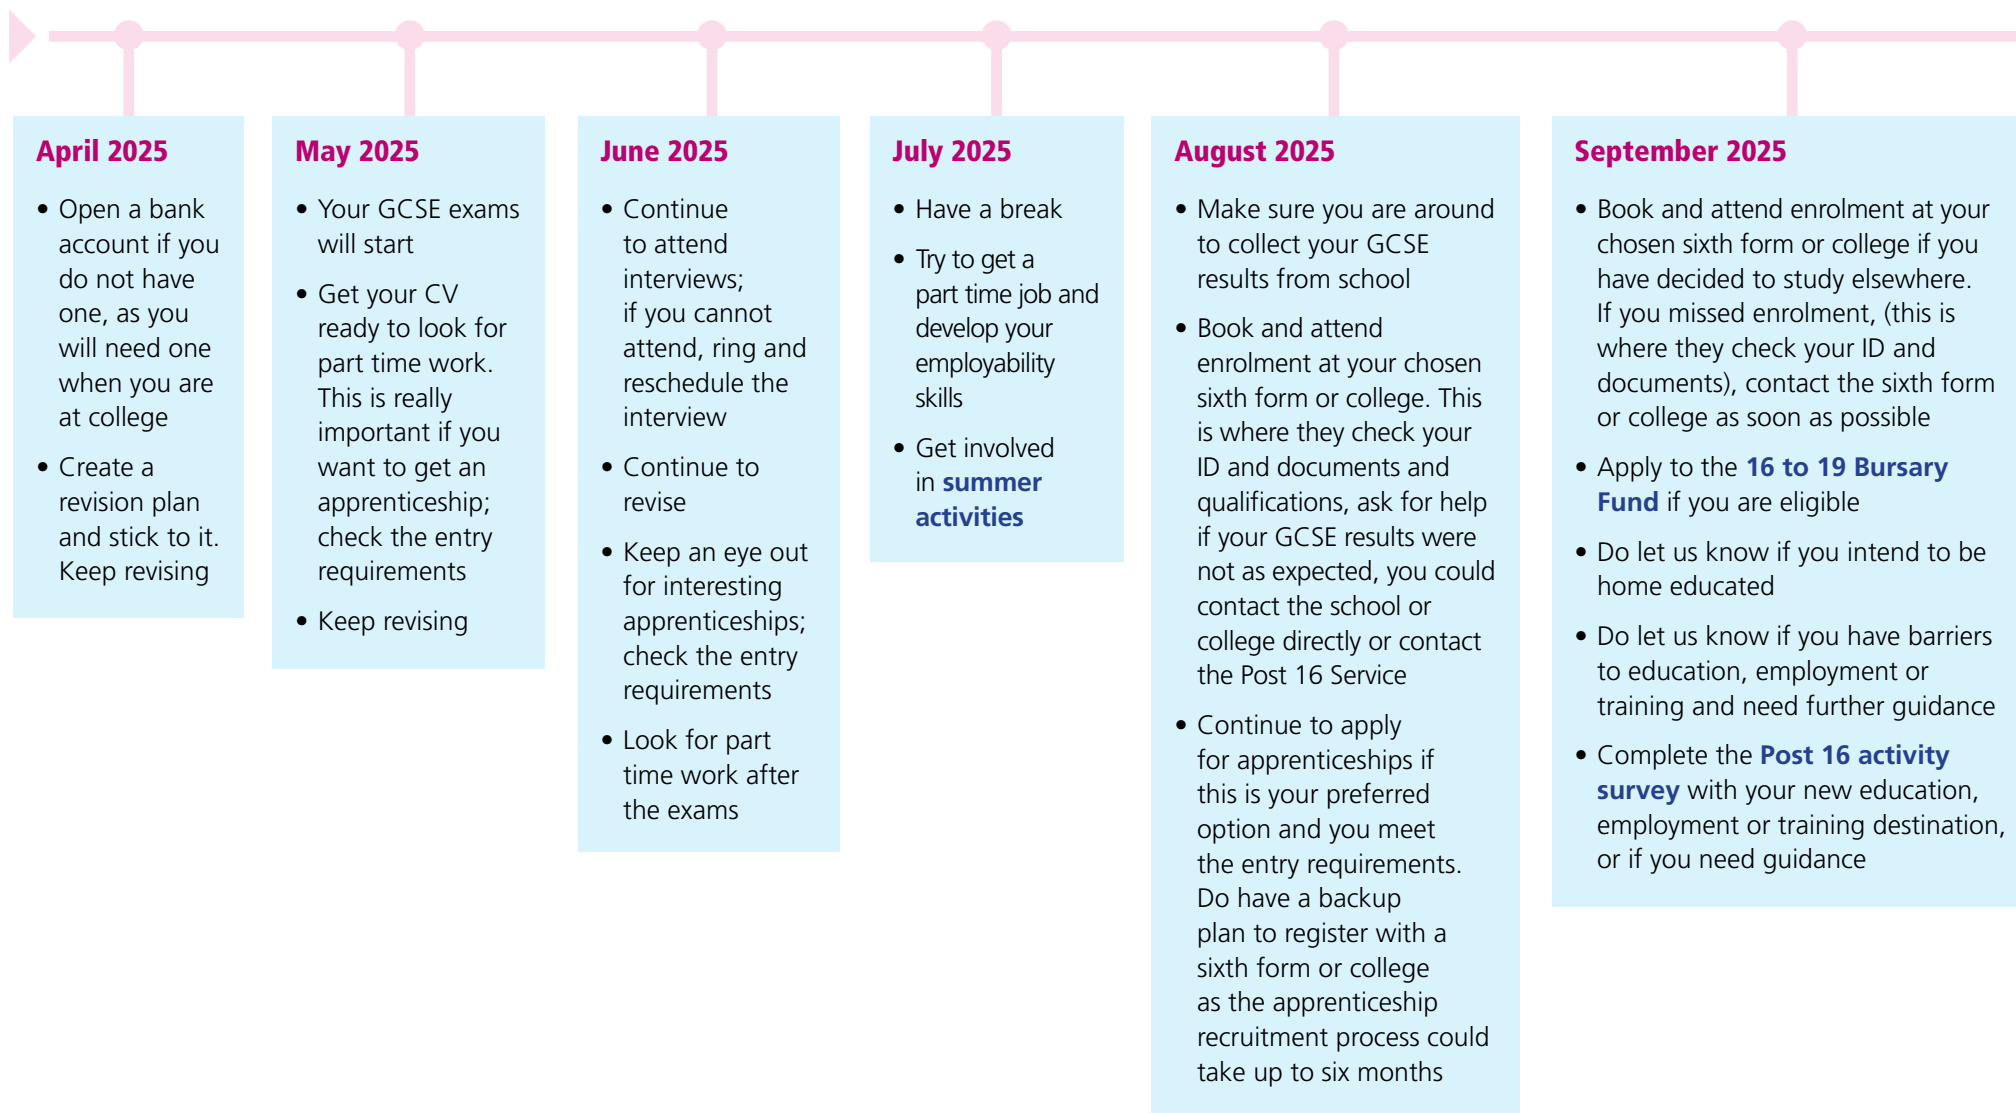

Your choices

Deciding what you want to do next

Post 16 timetable for September 2025 intake

Post 16 Service

Most young people in Southwark move on to education in a sixth form or further education college each year in the September after they turn 16, or they may start an apprenticeship or other employment with training. All school leavers must stay in some type of education or training until they are 18 or to the end of their academic year 13 if they are studying full time. To enable them to achieve a full level 3 qualification by the time they are 19.

In England you can leave school on the last Friday in June if you'll be 16 by the end of the summer holidays. You must then do one of the following until you're 18:

- Stay in full-time education, for example at a college
- Start an apprenticeship
- Spend 20 hours or more a week working or volunteering, while in part-time education or training.

We know that some 16 and 17 year old young people may find themselves out of education and we are here to help. The Post 16 service works with young people not in education, employment or training, offering advice and guidance by phone or email to identify best routes back into education, and employment career planning. We work closely with colleges and training providers to find the right support for each young person to help them move forward with their career goals.

This can include exploring routes into courses, or apprenticeships based on each individual's starting point.

Please use our **Post 16 Survey** form to let us know what you are up to. If you tell us that you are not in education or training we will get in touch and signpost you or advise you on your options. You can also email us at post16service@southwark.gov.uk.

Check the Southwark Post 16 website for latest developments and to stay connected as you progress towards **higher education or employment**.

You can also find useful information at the **National Careers Service Get the Jump Skills for Life**.

Information on Raising the Participation Age (RPA)

What is 'Raising the Participation Age' [RPA]?

All young people have a duty by the Education Skills Act (2008) to participate in education until their 18th birthday. Supported by parents/ carers, and schools, the Government expects each young person to make an informed decision about how they wish to participate.

Why was it introduced?

By staying in learning and training you can gain the qualifications and skills you need to help you to succeed. Advantages include:

- Making it easier to find and stay in a job
- Having the ability to earn and give you a greater choice of career paths
- Being able to compete in the future local job market; providing pathways to opportunities where you can develop your qualifications and skills further in order to support your future career aspirations for example, higher education (university) or higher apprenticeships
- You will have a greater chance to develop the knowledge and practical skills that employers are looking for.

Does this mean staying at school until I am 18?

Once you complete your GCSEs and secondary education, there are a number of options available for you to choose from:

- Continue in full time education or college
- Start a work based learning programme such as an apprenticeship
- Start full time work alongside part time learning which leads to an accredited qualification
- Volunteering for a minimum of 20 hours a week alongside part time learning which leads to an accredited qualification.

What duty does Southwark Council have?

- Promote the effective participation in education and training of 16 and 17 year olds in our area with a view to ensuring that those persons fulfil the duty to participate in education or training

- Make arrangements to track the activity of 16 and 17 year olds, and identify those who are not participating in education or training or who have left provision, to enable us to offer support as soon as possible through the Post 16 Service
- Identify 18 year olds in-year 13 who need support to stay in education or find work, and recognise those who are receiving support from their Jobcentre Plus.

Choosing the right pathway for you

How to choose?

While you are in year 11 at school or being home educated, you may already have an idea about your future academic and career journey, such as applying for sixth form then higher education or a particular career. Some careers and university courses require you to have specific subject grades in accredited qualifications. They will ask to see your certificates as part of the entry requirements. When received keep your qualification certificates safe.

Do speak to your careers adviser at school and ask the questions as soon as you can.

Southwark's Local Offer shows what's available in the borough for children, young people and adults (aged 0-25) who have Special Educational Needs and Disabilities. It includes up-to-date information on opportunities and services that are available to you. **See page 16.**

This would help you to make an informed decision to continue in education anything from an entry level to a level 3 programme, A levels, BTEC, a T level qualification, or a level 2 intermediate apprenticeship. Remember to have a backup plan if you don't meet the entry requirements for your first choice, so you can continue learning.

Checklist

The following checklist may be very useful. This would enable you to create your career pathway plan. Learning how to make an informed choice, by asking:

- How does the chosen course develop your interests, skills-set and subject knowledge?
- Does the chosen course require course work and exams, what will the workload look like?
- What do you need to be motivated to keep learning?
- What are the progression routes, would the chosen course enable you to achieve your career goal?
- How much study time would you need in order to achieve a good result?
- What are the barriers to your learning that need to be removed to keep you focused and realise your own potential?
- What are your options? **The National Career Service is available to guide you in the right direction.**

Advice about courses

If you are likely to leave school at the end of year 11 with no or few GCSEs or other level 2 passes, you should still follow the check list. Or if you are new to the UK starting year 12 you may want to consider starting from an ESOL programme.

Short courses are recommended at the end of the academic year, this is because there are limited progression routes into paid employment or an apprenticeship if you are under 18.

If you live in Southwark and missed the start date at sixth form or college, or you have recently moved into the borough and find yourself out of education get in touch with the post 16 service by email at post16service@southwark.gov.uk or complete the **Post 16 activity survey**.

Academic Qualifications

Entry Level Qualifications

Entry level qualifications are usually full time one year study programmes available at three sub-levels E1, E2 and E3. Most colleges offer entry level qualifications for young people aged 16 to 18, allowing E3 students to move onto the next level 1 programme. See [Which pathway is right for me?](#)

These are helpful for students who have missed education or are new to the UK, and want to improve in a chosen subject, including English and Maths. Contact colleges directly for an entry assessment. [See Colleges \(pages 57 to 65\)](#). Start dates are from September. Contact the college in advance of the planned start date for assessment and enrolment.

Level 1

Level 1 qualifications are usually full time, one year study programmes equivalent to GCSE - grades 1 to 3 or grades D to G: Level 1 award; first certificate or diploma; functional Skills level 1. These are helpful for students who want to improve their knowledge and skills in a chosen subject area, including English and Maths.

Most colleges offer level 1 qualifications for young people aged 16 to 18, allowing students to move onto a level 2 programme. Start dates are in September or January.

Contact the chosen college direct in advance for an entry assessment interview. [See Colleges \(pages 57 to 65\)](#).

Level 2

Level 2 qualifications are usually full time one year study programmes equivalent to GCSE grades 4 and above, or A to C: Level 2 award, certificate, diploma, functional skills level 2. Or T Level Transition Programme (TLTP), (this is a one-year post-GCSE study course aimed at students who would like to do a T Level but are not quite ready for its academic and technical demands. The programme's primary purpose is to move students on to a full T Level offered by some sixth forms).

These are helpful for students who did not achieve the entry requirements for a level 3 programme or want to improve their knowledge, and skills in a chosen subject area, including English and Maths.

Most colleges and some sixth forms offer level 2 qualifications for young people aged 16 to 18, allowing students to move onto a level 3 programme.

Start dates are in September. Contact the college in advance of the planned start date for assessment and enrolment.

Contact chosen college direct for an entry assessment. [See Colleges \(pages 57 to 65\)](#).

Level 3

Level 3 qualifications are usually full time two-year study programmes equivalent to three A levels: Applied general; BTEC level 3 award, certificate, diploma, national diploma; International Baccalaureate diploma; T Level; Tech levels. These are usually a combination of coursework and exams.

Most colleges and sixth forms offer level 3 qualifications for young people aged 16 to 18. Students often move onto employment or university. Start dates are in September; contact the college or sixth form, at least six months in advance of the planned start date. If you miss the start date by more than two weeks, you may have to wait for the next academic year. [See Sixth Forms and Colleges \(pages 19 to 65\)](#).

A levels

Are level 3 full time two year study programmes. Preparing to study A levels, students would need good GCSE grades to meet the entry requirements. Students sit all A level exams at the end of two years of study, will have no more than a 20% coursework component.

Most sixth forms offer A level qualifications for young people aged 16 to 18, allowing students to move onto an apprenticeship, university or employment.

Start dates are in September. Contact the college or sixth form at least six months in advance of the planned start date. Check the chosen sixth form or college's website for entry requirements. [See Sixth Forms \(page 19 to 65\)](#).

Academic Qualifications continued

T Levels Qualifications

Are at level 3. Some colleges and sixths forms offer T levels 20% work experience, 80% study in class, 3 months' work experience with the opportunity to grow your knowledge and skills. Equivalent to A levels that lead to a specific occupation.

Students can progress on to apprenticeships, jobs and some universities after successful completion. Some colleges and sixth forms offer T level qualifications for young people aged 16 to 18, allowing students to move onto an apprenticeship, university or employment.

Tech Levels

Are at level 3. Also known as Alternative Academic qualifications (AAQs) starting from 2025, formerly known as Applied General Qualifications (AGQ). They are equivalent to 3 A levels if studied over two years, e.g. BTECs, Cambridge Technicals. They are for students 16 to 19 who want to develop transferable knowledge and skills, through applied learning, covering a specific vocational area.

They allow entry to a range of higher education courses, either by meeting the entry requirements in their own right or being accepted alongside other qualifications at Level 3 such as A levels. Many colleges and sixth forms offer Tech level qualifications for young people aged 16 to 18, allowing students to move onto an apprenticeship, university or employment.

National Vocational Qualifications (NVQs)

Are at level 2 to 7. The NVQ is a practical work-based qualification focusing on the student's practical skills; the NVQ is assessed in the workplace. Students will complete training, build up a portfolio of evidence based on their professional experience.

On successful completion of the NVQ, students should gain a nationally recognised qualification with workplace experience, empowering students to apply for suitable employment opportunities in the future. Some employers offer NVQ qualifications for young people aged 16 to 18, allowing students to move onto an apprenticeship, university or employment progression routes.

Apprenticeships

Apprenticeships give you the opportunity to work, learn and earn all at the same time.

You will work for a real employer alongside other experienced staff. You will be earning a salary, gaining valuable work experience and employability skills, and you will gain a qualification.

Types of apprenticeship

You can apply for different types of apprenticeships based on your current skills and qualifications:

- Intermediate level (level 2)
- Advanced level (level 3)
- Higher (levels 4, 5 and 6)
- Degree (levels 5, 6 and 7)

When can I start an apprenticeship?

If you live in England and are aged 16 or over, you can apply to be an apprentice. You can start an apprenticeship on the first day after the last Friday in June (official school leaving date in England) as long as you are 16 or become 16 before 1 September of that year. You will need to be living in England and not in fulltime education.

Entry requirements

Entry requirements are based on the level of the apprenticeship. Intermediate Level 2 apprenticeships will usually require 3 to 5 GCSEs grade 4 or above including English and Maths. Or the willingness to work towards level 2 English and Maths functional skills qualifications during the apprenticeship.

Advanced level apprenticeships usually require five good GCSE grades 4 or above. Higher level apprenticeships require good GCSE grades 4 to 9, and a level 3 qualification such as BTEC level 3 or three A levels, or a two year T Level. Or a level 2 apprenticeship qualification with a year's work experience.

Remember to check if you meet the eligibility criteria. This may include asking if you can to work and train in the UK post 16. For example you would need a national insurance number, a bank account, a leave to remain status, or UK settled status.

How much will I earn?

The minimum wage for apprentices aged 16 to 18 is updated yearly on the website www.gov.uk/apprenticeshipsguide/pay-and-conditions.

Training and qualifications

During your apprenticeship you will also receive training to gain a nationally recognised qualification in your chosen area. Your employer will be working with your training provider to ensure the programme is structured to support you to gain the skills you need for the job.

How do I find and apply for an apprenticeship?

When you finish year 11, then you can start an apprenticeship. Applying is easy with the [find an apprenticeship website](#). You need to create an account, log all of your information and set preferences before applying, usually by completing an online application form and answering a few questions set by the employer.

If you need help to meet the entry requirements, you could consider applying to college. Remember you should do your best to participate while you are in-year 12 and 13 this should enable you to progress towards your career goal.

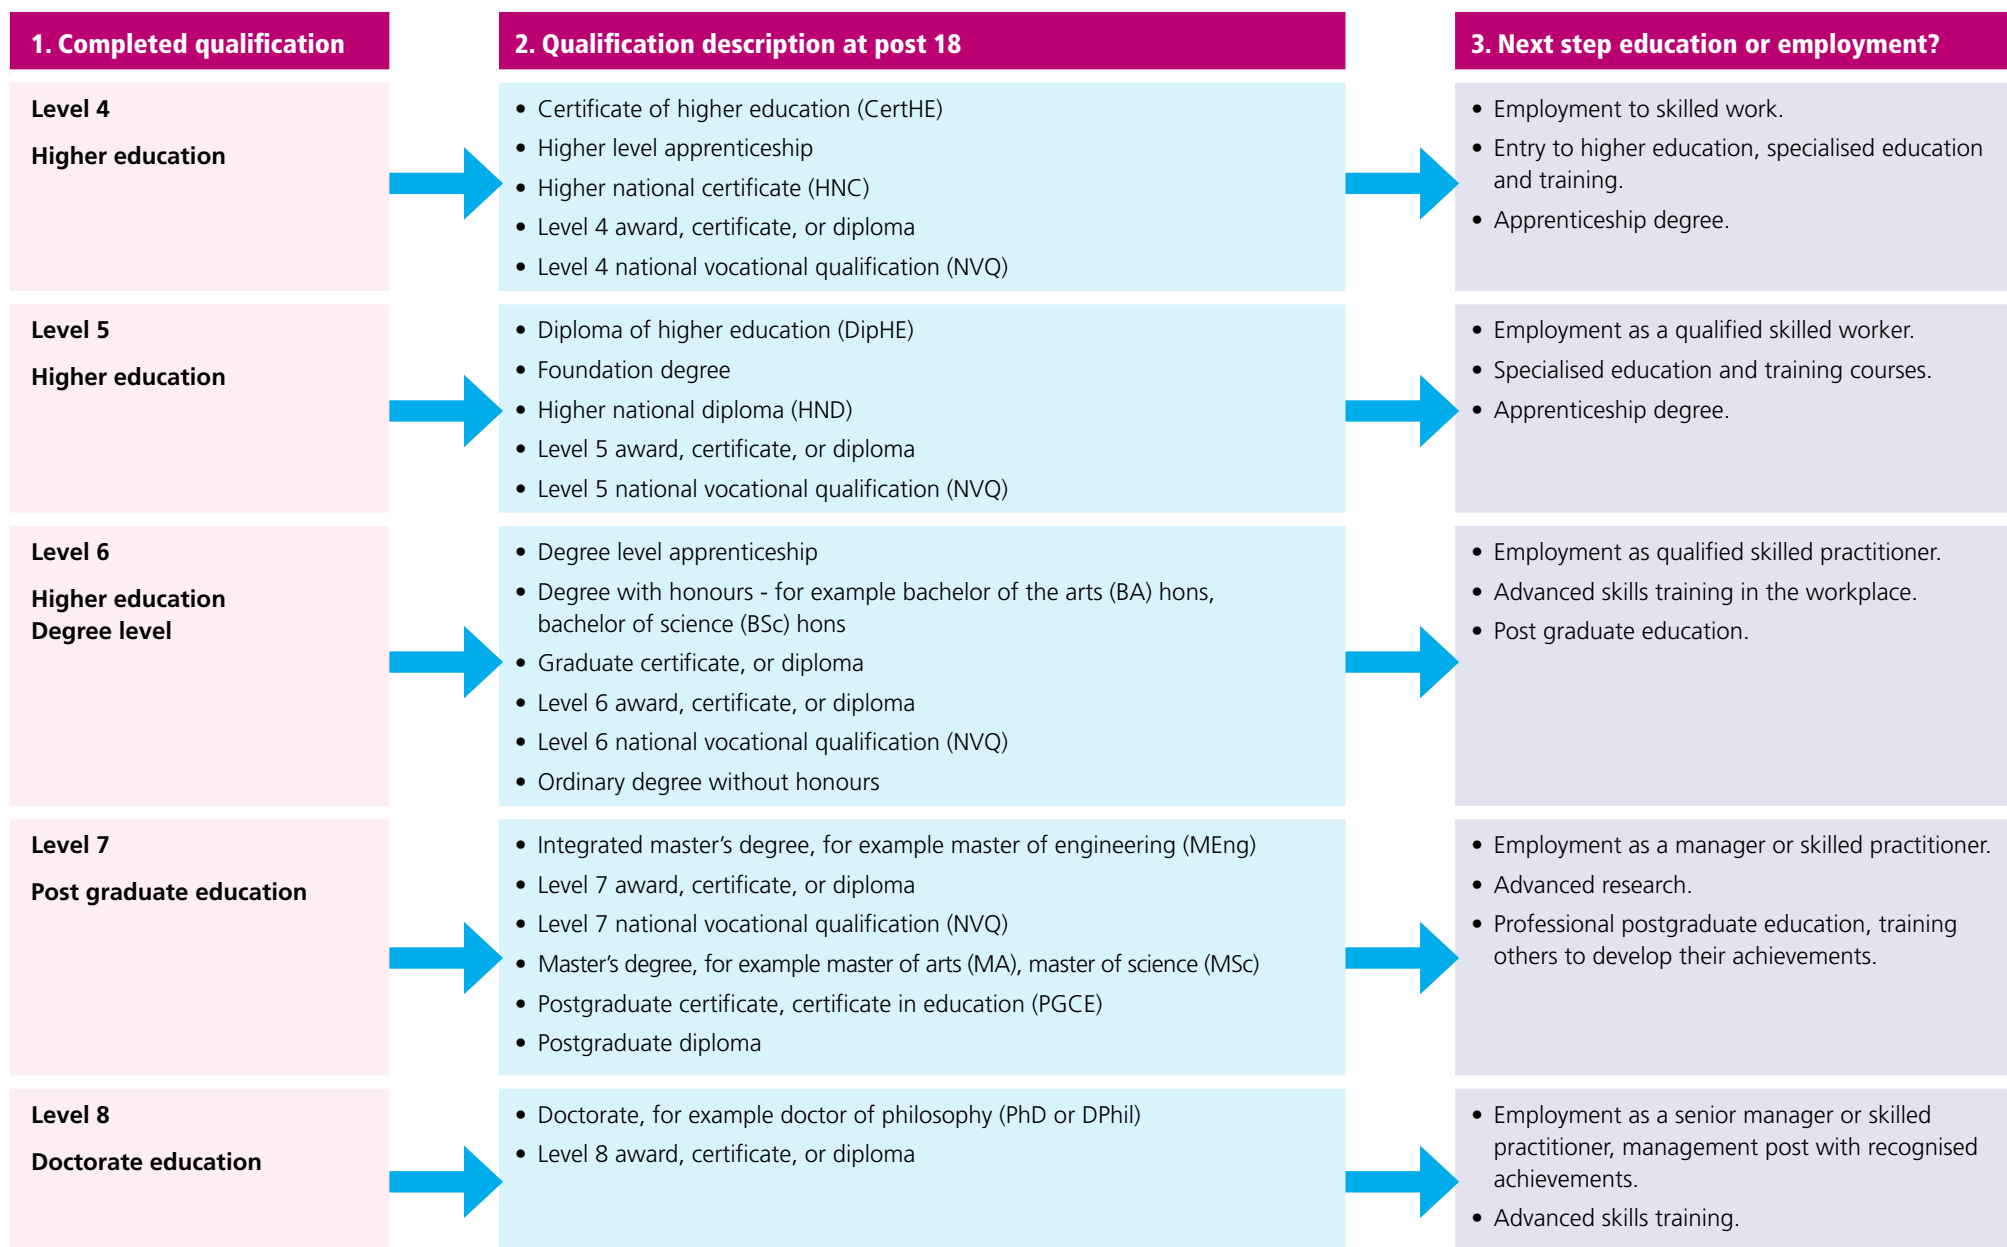

Which pathway is right for me?

1. Completed qualification	2. Qualification description at post 16	3. Next step education or employment?
Entry level 1 to 3	<ul style="list-style-type: none"> • Entry level award, certificate (ELC), or diploma • Entry level English for speakers of other languages (ESOL) • Entry level functional skills • Skills for Life 	Qualification can be taken at any age in order to continue or return to education or employment with training.
Level 1 Initial secondary	<ul style="list-style-type: none"> • First certificate, GCSE - grades 3, 2, 1 • Level 1 award, certificate, or diploma • Level 1 ESOL • Level 1 functional skills • Level 1 national vocational qualification (NVQ) 	Secondary level education entry into employment, further education, or an apprenticeship intermediate level.
Level 2 Continuation of secondary	<ul style="list-style-type: none"> • GCSE - grades 9, 8, 7, 6, 5, 4 • Intermediate level apprenticeship • Level 2 award or national, certificate, or diploma • Level 2 functional skills • Level 2 national vocational qualification (NVQ) 	Progression to employment. Continuation of education, or an apprenticeship intermediate or advanced.
Level 3 Further education	<ul style="list-style-type: none"> • A level, Access to higher education diploma • Advanced level apprenticeship • International Baccalaureate diploma • Level 3 award, certificate, or diploma • Level 3 national vocational qualification (NVQ) • Tech level 	<p>Progression to skilled work. Entry to higher education.</p> <p>Apprenticeship continuing at advanced or progress to a higher level.</p>

There will be specific requirements for courses and jobs, some may have higher entry requirements than others.

If you do not achieve a minimum of a grade 4 at GCSE in Maths and English or level 2 Functional Skills, you will be encouraged to continue studying Maths and/or English.

Where can you study or train?

At the end of year 11 you have a number of choices of where to study. It is worth doing some research into the ones you are interested in. You can find information on the internet. Open days or taster days are available to check and see whether you think sixth form or college is right for you.

School sixth forms

Schools sixth forms primarily teach A levels but some may offer vocational courses such as BTECs and T levels.

Some offer resits in GCSE Maths and English with a core subject: forming a BTEC, vocational, or a T level Transition Programme, if you did not get a grade 4 or above the first time round. This pathway would prepare you for A levels, an apprenticeship or employment by the time you are 18.

School sixth forms are smaller than most sixth form colleges and further education colleges.

You don't usually have to wear school uniform but smart clothing may be required and you will need to attend every day.

Sixth form colleges

Sixth form colleges are for 16 to 19 year olds. They have on average 1,200 students studying from entry level up to A levels and BTEC nationals.

They offer a wide range of courses including applied courses.

Although there are no sixth form colleges in Southwark there are a number in neighbouring boroughs that you can apply for. [See pages 62 to 65.](#)

Further education colleges (FE colleges)

Many FE colleges offer a broad range of courses at different levels from A levels, BTECs, Entry level programmes, ESOL, GCSE retakes, Life Skills, T levels, and Vocational courses.

FE colleges are large organisations and they may have more than one site. [See pages 57 to 65](#) for all colleges in London.

University technical colleges (UTCs)

If you know the sector you wish to pursue a career in and want to develop specialist skills you may apply to a UTC. Technical specialisms include engineering, manufacturing, health sciences, product design, digital technologies or built environment.

Training providers

Some training programmes are designed to add to your attainment level, or gain some qualifications, and add to your skills-set to help you to get work ready.

Often, short courses are recommended at the end of the academic year. This is because there are limited progression routes into paid employment or an apprenticeship if you are under 18, or if the local labour market is stagnant.

Many colleges offer training programmes to enable you to get back on track. If you find yourself out of education mid year please email the post 16 service on post16service@southwark.gov.uk or complete the [Post 16 activity survey](#). Any full time regulated qualification would benefit you in your career, enabling you to make an informed decision to fill in your skills gaps to achieve your career plan.

If you are unsure what you would like to do, remember at the end of year 12 or 13, you could still do the CSCS (Construction Skills Certification Scheme), first aid, football coaching, or work experience during your holidays.

localoffer@southwark.gov.uk

www.localoffer.southwark.gov.uk

[@localofferswk](https://twitter.com/localofferswk)

What comes next?

Your choices after you have completed your chosen pathway at 18

Employment

At 18 you can leave education and get a full time job. Some young people may start employment in-year 12 and 13 part time while they are studying, or full time with training.

If you are an employee in the UK you are expected to follow the company rules and procedures, and your employer must follow and respect your employment rights.

Be prepared and know where to go to find out more about:

- **Contract of employment**
- **Minimum wage**
- **National insurance contributions**
- **Work time regulations**
- **Work trials**
- **Young workers**

Also, check how pay may affect your family's benefits or the household income. If you are a worker, get to know your rights about pay, holiday entitlement, sick pay, maternity pay, paternity pay, weekly working hours and notice periods.

Some young people will go on to work for the family business in year 12 and 13, you still have worker rights. The rules are different if you are **self-employed**.

Higher and Degree Apprenticeships

A higher apprenticeship leads to a higher education level qualification (at level 4, 5, 6 or 7). Qualifications on offer include NVQ (National Vocational Qualification) level 4, HND (Higher National Diploma) and foundation degrees.

Degree apprenticeships offer a full bachelor's or master's degree. Apprenticeships at higher or degree level could be up to six years.

Support into Employment

Southwark Works supports Southwark residents into employment.

For more Information visit: [Southwarkworks.com](https://southwarkworks.com)

Email info@southwarkworks.gov.uk

Call: 0800 052 0540

Address: 376 Walworth Road London, SE17 2NG

University

Some professions (e.g. architecture, teaching or medicine) require a degree. Many more employers now expect their staff to have high levels of education.

Going to university gives you the chance to study a subject you are passionate about. In higher education you can develop valuable skills to give you a wider range of career opportunities.

For a few people, choosing a subject to study is simple – you will either be clear about your career path and need a specific degree to follow or you have always had a passion for a particular subject. However, for most there is a bewildering variety of courses, many of which involve subjects that are not taught in schools or colleges. Do your research to narrow your choices down.

Ark Globe Academy **Academy**

Executive Principal:

Mr Matt Jones OBE

DfE number: 210/6912

Specialisms: Maths and performing arts

 020 7407 6877

 www.arkglobe.org

 sixthform@arkglobe.org

 Harper Road, SE1 6AF

Courses and subjects offered:

A Level subjects

- ▶ Biology
- ▶ Chemistry
- ▶ Computer Science
- ▶ Economics
- ▶ English Literature
- ▶ French
- ▶ Geography
- ▶ Government and Politics
- ▶ History
- ▶ Mathematics

▶ Media Studies

▶ Physics

▶ Psychology

▶ Sociology

▶ Spanish

Level 3 subjects

- ▶ Professional Pathways in Business (BTEC level 3)
- ▶ Professional Pathways in Sport and Exercise Science (BTEC level 3)

How to apply:

For full details on how to apply, please visit the **academy's website**.

Academic entry requirements:

- ▶ Five grades 4 to 9 including English and Maths at GCSE for BTEC.
- ▶ Five grades 5 to 9 including English and Maths at GCSE for A level - individual subjects have specific entrance requirements. Please view the academy's website for further details.

Published admission number:

The published admission number for year 12 is ten. This is the number of places which will be offered on an annual basis to eligible external applicants only.

6th form open day/evening dates

For information please email
sixthform@arkglobe.org

School Sixth Forms

Oversubscription criteria 2025 summary:

Contact academy for full criteria

If year 12 is oversubscribed then, after the admission of students with special educational needs where the school/academy is named on the statement or education, health and care plan, the criteria will be applied in the order in which they are set out below to determine which student should be given priority for the places available on chosen courses, providing they have met the sixth form entry and course requirements:

1. Looked after children and children who have previously been a 'Looked After Child' but immediately following this became subject to adoption, a child arrangements order or special guardianship order, including those who appear (to Ark Schools) to have been in state care outside of England and ceased to be in state care as a result of being adopted.
2. Children of staff at the school where there is a demonstrable skill shortage.
3. Children who, at the time of admission, have a sibling who attends the school. For this purpose, 'sibling' means a whole, half or step-sibling or an adopted child resident at the same address.
4. Children of staff in the school who have been employed at the academy for two or more years at the time the application is submitted.
5. Distance measurement by a straight line route. A child's home will be at the address at which the child normally resides and which has been notified to the academy and other relevant agencies as being the child's normal place of residence.

- ▶ Biology
- ▶ Chemistry
- ▶ Economics
- ▶ English Literature
- ▶ French
- ▶ Further Maths
- ▶ History
- ▶ Geography
- ▶ Government and Politics
- ▶ Maths

- ▶ Music
- ▶ Photography
- ▶ Physics
- ▶ Psychology
- ▶ Sociology
- ▶ Spanish

Level 3 subjects

- ▶ BTEC Applied Science or T Level Science (Lab Sciences)
- ▶ BTEC IT or T Level Digital Production, Design and Development

How to apply:

For full details on how to apply, please visit walworthacademy.applicaa.com/year12

Academic entry requirements:

- ▶ Minimum five grades 9 to 5 GCSEs including English and Maths at grade 4 for entry. A level pathway will require grade 6/7 in named related subjects. Please visit the academy's website at walworthacademy.org/admissions/sixth-form for full details of the specific entry criteria for each.

Published admission number:

The published admission number for year 12 is 30. This is the number of places which will be offered on an annual basis to eligible external applicants only. If fewer than 90 of the academy's own year 11 pupils transfer into year 12, additional external pupils will be admitted until year 12 meets its capacity of 120.

6th form open day/evening dates

Thursday 17 October 2024, 5.30pm-7pm.
The Principal's speech will take place at 6pm.

School Sixth Forms

Oversubscription criteria 2025 summary

Contact academy for full criteria

Where the academy is named on a pupil's statement of special educational needs or education health and care plan, that child will be admitted by the academy. If the number of applications for admission to the sixth form is greater than the published admission number, applications will be considered as follows:

1. Looked after children and children who have been previously looked after, including internationally adopted previously looked after children.
2. Children of staff at the school where there is a demonstrable skill shortage. Children of members of staff will have priority in the oversubscription criteria if the staff member is filling a post for which there is a demonstrable skill shortage. Priority will be limited to one place for each form of entry in any year.
3. Children who at the time of the admission have a sibling who attends the academy. For this purpose "sibling" means a whole, half or stepbrother or stepsister or an adopted child resident at the same address.
4. Children of staff in the school. Where there is no demonstrable skill shortage, priority may be given where the academy is oversubscribed to a child of a person who will have been employed in the academy for two or more years at the time the application for admission is made. Priority will be limited to one place for each form of entry in any year.
5. Distance measurement using a straight line route. A child's home will be the address at which the child normally resides and which has been notified to the academy and other relevant agencies as being the child's normal place of residence.

WHAT IS IT LIKE TO STUDY HERE?

“ARK Walworth Academy welcomed me and stretched me to be my best self. My course, work experience and teacher support made me believe in myself in a way I didn't think I could. That support and belief enabled me to secure a degree apprenticeship at JP Morgan.”

- ▶ BTEC Sport Science/Physical Education

How to apply:

Find out more about applying at
www.habsborough.org.uk/admissions/sixth-form

Published admission number:

The published admission number (PAN) for Year 12 is 30. This PAN relates to external applicants only. Existing Year 11 pupils are already on the roll and will transfer to Year 12 if they want to (subject to meeting the minimum entry requirement). Once it is known how many existing Year 11 pupils will be transferring to Year 12, it may be possible to admit additional external candidates above the PAN.

Academic entry requirements:

The academy will publish at the beginning of the academic year and prior to admission, the minimum academic entry criteria based upon GCSE grades or other measures of prior academic attainment. These academic entry requirements are published on the academy's website at www.habsborough.org.uk/Admissions/Sixth-Form

Students will only normally be allowed to pursue courses for which they have met the minimum entry requirements.

6th form open day/evening dates

Please contact the academy
for further information

School Sixth Forms

Oversubscription criteria 2025 summary:

Contact academy for full criteria

When the academy is oversubscribed, after the admission of pupils with an Education, Health and Care plan naming the academy, places will be allocated to external candidates in the following order of priority:

1. Looked after children and children who were previously looked after, but immediately after being looked after became subject to adoption, a child arrangements order, or special guardianship order. A 'previously looked after child' includes those children who appear (to the admissions authority) to have been in state care outside of England and ceased to be in state care as a result of being adopted.

-
2. All other external candidates.

Tie breaker - If in all categories above, where there are more applications than places available and a tie-break is necessary to determine which child is admitted, the child living closest to the school will be given priority for admission. Distance is measured in a straight line from the child's home address to a central point in the academy's main site on Southwark Bridge Road.

Random allocation will be used as a tie-break if the distance between a child's home and the school is equidistant in any two or more cases.

How to apply:

For full details on how to apply, please visit the school's kingsdalefoundationschool.org.uk

Academic entry requirements:

Admission to the sixth form

- ▶ Admission to the sixth form does not provide an automatic right to follow a particular programme of study or specific course without meeting our published minimum academic requirements for each subject in the sixth form study programme and course booklet. All sixth form entrants will be encouraged to follow a suitable and prescribed 16 to 19 study programme after information, advice and guidance meetings.

A Level Pathway

- ▶ Minimum of six 9 to 7 grades at GCSE including English Language and Mathematics. Individual subjects may require specific grades in particular qualifications to enable study of a designated course.

Technical Pathway

- ▶ Minimum of six 9 to 6 grades at GCSE including English Language and Mathematics. Individual subjects may require specific grades in particular qualifications to enable study of a designated course.

Level 2 Transition Pathway

- ▶ Minimum of five 9 to 4 grades at GCSE including English Language and Mathematics. Priority may be given to students who achieve a minimum of 3 GCSEs at grade 5 or above.

6th form open day/evening dates

Please contact the academy
for further information

School Sixth Forms

Published admission number:

The published admission number for year 12 is 40. This is the number of places which will be offered on an annual basis to eligible external applicants only. If fewer than 160 of the academy's own year 11 pupils transfer into year 12, additional external pupils will be admitted until year 12 meets its capacity of 200.

Oversubscription criteria 2025 summary:

Contact academy for full criteria

If year 12 is oversubscribed then, after the admission of students with special educational needs where the school/academy is named on the statement or education, health and care plan, the criteria will be applied in the order in which they are set out below to determine which student should be given priority for the places available on chosen courses, providing they have met the sixth form entry and course requirements:

1. Children in public care (looked after children) or children who were looked after but ceased to be so because they were adopted (or became subject to a residence or special guardianship order) i.e. previously looked after children (PLAC) or internationally adopted previously looked after children (IAPLAC). See Note 6 of Kingsdale's admission policy.
2. Where professional evidence indicates that there are particular psychological, medical or social needs which the school's learning support faculty agrees only Kingsdale has the capability of addressing or meeting and significant difficulties would arise were the applicant to attend a different school.
3. Students will be ranked by their average point score for their best five qualifying subjects for the course they wish to study.
4. Random allocation. This process will be supervised by a person not employed by or independent of the school (see Note 10 of Kingsdale's admission policy).

WHAT IS IT LIKE TO STUDY HERE?

“Opportunity is the word that defines Kingsdale. It is a school that recognises hard work and then rewards it more than proportionately. Throughout my two years sixth form study I have been afforded various opportunities from learning to fly to doing work experience at the United Nations. The high standards set by Kingsdale have enabled me to study at Oxford University next year.”

Oversubscription criteria 2025 summary:

Contact academy for full criteria

If year 12 is oversubscribed then, after the admission of students with special educational needs and those where the academy is named on the education, health and care plan, the criteria will be applied in the order set out below to determine which student should be given priority for places available on chosen courses (providing they have met the sixth form entry course requirements):

1. Looked after Catholic and all previously looked after Catholic children, including those children who appear (to the admission authority) to have been in state care outside of England and ceased to be in state care as a result of being adopted
2. Children who, together with one or both parents, are baptised, practising members of the Catholic Church and are resident in the Camberwell, Cathedral or Lambeth Deaneries
3. Children who are baptised members of the Catholic church and are resident in the Camberwell, Cathedral or Lambeth Deaneries
4. Children who are baptised members of the Catholic church
5. Other looked after children and other previously looked after children who have been adopted or who have become the subject of a residence or guardianship order, including those children who appear (to the admission authority) to have been in state care outside of England and ceased to be in state care as a result of being adopted
6. Children who are baptised members of Historic Eastern churches
7. Children who are members of churches that are part of Churches Together in England
8. Any other applicants

School Sixth Forms

Oversubscription criteria 2025 summary:

Contact school for full criteria

If there are more external applicants who meet the minimum level of attainment than there are places available, places will be offered conditionally (subject to an applicant meeting the minimum level of attainment in their actual GCSE results) by course in the following order of priority:

1. Catholic looked after children and looked after children including internationally adopted previously looked after children and all previously looked after children, including those children who appear (to the admission authority) to have been in state care outside of England and ceased to be in state care as a result of being adopted.
2. Applicants who are baptised Catholics. Applicants will be required to submit a supplementary application and the original baptism certificate.
3. Applicants with a brother or sister on roll at the time of application. This includes half, step and adopted siblings living permanently at the same address. It does not include cousins.
4. All other applicants.

If there are more applicants than places available in any of the criteria stated at 1 - 4 above, remaining places will be offered by the drawing of lots.

Applicants not offered a place at the sixth form may request that their name is placed on the waiting list for one term.

In the event that a course is oversubscribed (typically more than 15 successful applicants to an A level class, 12 students per BTEC class) places will be offered on alternative courses that have spaces available. Students will fill a course allocation in order of GCSE average points score (APS) order in best eight GCSEs. Every effort will be reasonably made to accommodate all successful applicants' combination of course choices.

WHAT IS IT LIKE TO STUDY HERE?

“Joining STAC sixth form was the best decision I made for my education after year eleven. I’ve had so much support whilst being surrounded by likeminded, ambitious peers and supportive teachers with high expectations of us all. The opportunities for work experience, UCAS advice, enrichment experiences has been amazing as it has built my confidence enormously.”

Oversubscription criteria 2025 summary:

Contact academy for full criteria

If Year 12 is oversubscribed then, after the admission of students with special educational needs where the academy is named on the statement or education, health and care plan, the criteria will be applied in the order in which they are set out below to determine which student should be given priority for the places available on chosen courses, providing they have met the post 16 entry and course requirements:

1. Looked after children and previously looked after children, including internationally adopted previously looked after children
2. Applicants who live nearest to the school measured by the shortest safe walking distance from the child's home to the corner of Lynton Road and St. John's Road by the main academy building
3. Where the distance tie-break does not produce a clear outcome (i.e. two children live precisely the same distance from the school), the place will be determined by random allocation supervised by a person independent of the school
4. Children of staff employed at the academy with at least two years continuous employment or where the Academy reasonably considers a member of staff has been recruited for a permanent position for which there is a demonstrable skills shortage.

WHAT IS IT LIKE TO STUDY HERE?

“I love the City of London Academy and enjoy studying here. Students have access to a wide range opportunities, preparation for the world of work and are offered various trips. We are fully prepared and supported for the next stage of our lives.”

Student,
studying at the City of London Academy Sixth Form

A group of four diverse students are sitting at a table, smiling and looking at their laptops. The student on the far left is a young man with dark curly hair, wearing a light grey jacket over a mustard-colored shirt, with headphones around his neck. Next to him is a young woman with long dark hair in a ponytail, wearing a white shirt. In the center is a young woman with voluminous curly red hair, wearing a red t-shirt and a necklace with a circular pendant. On the far right is a young man with short dark hair and a beard, wearing a white t-shirt. They are all smiling and appear to be in a collaborative learning environment. The background is a bright, out-of-focus indoor space with large windows.

Further information

Financial support

As a 16 to 19 year old student you may be able to get help with money. There are different types of funding you may be able to claim.

16 to 19 bursary fund while you are at College

Check eligibility criteria with the sixth form or college. You can ask for a bursary form at enrolment day.

The college would ask you to provide evidence when you complete the application form. If you do not meet the requirements or provide the evidence within the requested timeframe you may not get a bursary.

There are two types of 16 to 19 bursary:

Vulnerable student bursary

You could get a bursary worth up to £1,200 depending on your circumstances.

16 to 19 Bursary Fund guide 2024 to 2025 academic year.

This group includes:

- People in care
- Care leavers
- People claiming income support
- Disabled young people who receive Employment Support Allowance and Disability Living Allowance

Discretionary bursary

You could get a discretionary bursary if you need financial help but don't qualify for a vulnerable student bursary. Your education or training provider decides how much you get and what it's used for.

Successful applicants of this bursary receive funds for course related expenditure if the household annual income is £28000 or below.

Students must meet the residency criteria in [ESFA funding regulations](#) for post 16 provision.

How is your bursary paid?

Your education or training provider will decide how you get your bursary. You might be:

- Paid in full or in instalments
- Paid through a bank account
- Given things like a travel pass, free meals or books instead of money

Your provider will set conditions that students should meet to receive a bursary for example, good behaviour and 95% attendance. Your bursary could

be stopped if you break their rules. Remember to check the bursary eligibility criteria with the sixth form or college.

For more information please visit www.gov.uk/guidance/16to19educationfinancialsupport-forstudents.

Benefits

The general rule on benefits is that if you are under 18 you cannot make a claim for any benefits.

Your parents/carers will still get any child benefit or other benefits they already receive as long as you are under 19 and in full time education. If you are not engaged, and not meeting the Raising the Participation Age (RPA) requirements, some benefits may cease.

If however you are living away from your parents, out of necessity, or have family to support, you may be able to make a claim.

For more information contact your local Job Centre Plus **0800 055 6688**.

Care to learn

You can claim Care to Learn if you are under 20, caring for your own child and doing a school and college course or training programme that receives public funding (fathers are eligible if they are the main carers). An application can be made as soon as you have a confirmed offer of a course.

For more information please go to www.gov.uk/care-to-learn

Dance and Drama Awards (DADA)

These are available at a number of accredited dance and drama schools. The professional courses cover acting, dance, musical theatre and production skills. You must be 16 or over and show talent and a likelihood to succeed in the industry.

A Dance and Drama Award can help you pay for your tuition fees and towards living costs. The amount you get depends on your household income and where you live and study.

For more information on these awards check: www.gov.uk/dance-drama-awards

Other support

Careers helpline for teenagers

National Careers Service helpline
www.gov.uk/careers-helpline-for-teenagers
Telephone: **0800 100 900**

[Find out about call charges](#)

The NEST, Anxiety support

Young people can directly access The Nest – which is the Southwark commissioned emotional wellbeing hub www.thenestsouthwark.org.uk

Young Carers

Imago provide support to young carers
[www.imago.community/Childrenand Young-People/SouthwarkYoungCarers](http://www.imago.community/ChildrenandYoungPeople/SouthwarkYoungCarers)

Travel

Children aged 16 to 17 can get free and discounted travel on some TfL transport services with a Zip Oyster photocard.

A parent or guardian must apply for a 16+ Zip Oyster photocard if their child is under 18. There is a £20 administration charge.

If you're 18, you must apply for your 16+ Zip Oyster photocard and create your own [photocard web account](#).

When you apply, you agree that you and the Zip Oyster photocard holder will comply with TfL's [Young Person's Behaviour Code](#). If you or the photocard holder do not comply, TfL may withdraw the photocard.
